REQUEST FOR SANITARY SERVICE REPAIR

I, the undersigned owner of the property whose address is:

_____,

request that the City of Saint Paul replace my sanitary sewer service within the right-of-way as part of the **WESTERN AVENUE Paving Project**. I understand that I may elect to have only the sanitary service connection at the main replaced, or have both the connection and the service from the main to the property line replaced. (Generally in Saint Paul this length is approximately 30 feet.) I will check one of those options below. This request DOES NOT include repair or replacement of the sewer service on my private property. (See diagram on reverse.)

ESTIMATED COSTS:

Option 1: **Replace connection at the main only** CHECK HERE: _____

Excavate, replace connection	$1,500.00
City Processing Fee (8%)	$120.00
Total **Estimated** Cost	$1,620.00

Option 2: **Replace connection and replace service from main to property line** CHECK HERE: _____

Excavate, replace connection	$1,500.00
Service Replacement ($30 per linear foot of pipe multiplied by 30 linear feet)	$900.00
City Processing Fee (8%)	$192.00
Total **Estimated** Cost	$2,592.00

I agree to pay the cost of the sewer repair work as shown above when completed, based on the ACTUAL length of pipe installed. I further agree to pay this cost through a special assessment on my property payable over up to 20 years with interest. I understand that I will be billed for the assessment the year following completion of the work. I also understand that this sewer repair assessment will be **in addition to** a separate assessment on my property for the paving and lighting improvements.
