	Yes	No	Unsure
Agenda was clear	X		
Meeting was well run	X		
Meeting space was set up well	X		
Meeting was worthwhile			X
I had an opportunity to provide feedback	X		

What could have gone better? Please don't say that neighbors "approved" any design you come up with

Other comments ~~[illegible]~~ input from past committees was not mentioned — unsure if designers will see it → i.e. no dogs!

I had an opportunity to provide feedback	XXX		

What could have gone better? I wish more neighborhood residents would have continued participation - it was their choices, however.

Other comments I appreciate City Staff listening to and incorporating comm. members' feedback.

① The Ackeberg balcony is a terrible idea.

② The 5ft + 4ft. wall on the alley is a terrible idea & makes is extremely clear the Parks Dept & City want to block any expansion to the south.

Capitol River Council

- The CRC board & committees have discussed the impacts of dogs on parks. Based on that I recommend a larger dog area.
- Please investigate strategies for increased pedestrian safety, especially near the alley off of Robert.
- We continue to support the need for a larger park.
