I have been serving as Ramsey County Commissioner or St. Paul City Councilmember for the North End area for 27 years so I am aware of the concerns and needs of the community.

Residents, business owners and their employees and customers, churches, schools, the District 6 Planning Council, the North End business Association, block clubs and community organizations have advocated for nearly 20 years for a St. Paul Police Department Central District Station to be located in the North End neighborhood. They all believe in a strong police/community partnership and have been unwavering in their commitment to this long overdue facility.

I wholeheartedly extend my support for this project.

Respectfully,

Janice Rettman
