# General direction from concepts presented at Mtg#2

1. Incorporate bus stop into plaza.
2. Extend trail connection to north end of park.
3. Preference for smaller plaza space.
4. Like stone seat walls that allow views into and out of park.
5. Utilize new park signage.
6. Explore integration of no mow fescue and/or pollinator friendly turf.
7. Movable picnic tables.

Drinking fountain

Bench

Bike repair station

Standard park signage

Bike rack

2 sided Grand Rounds kiosk  
(Saint Paul currently  
developing Grand Rounds  
signage)

Bus stop

Picnic table (movable)

Existing honey locust trees

Planting area defines gathering  
areas - creates internal plaza  
space

Wall defines plaza space and  
provides seating

Planting bed to reinforce plaza  
space - utilize pollinator friendly  
plants throughout

Plaza pavers with decorative  
paver bands

Trail connection

Plaza (2,470 sf)
