**WHEREAS**, the Saint Paul Heritage Preservation Commission, based upon information gathered by staff and presented at the November 19, 2015 meeting, made and adopted the following findings:

1. Leg. Code § 74.90.(j) – The adopted Preservation Program for the Dayton's Bluff Historic District states that consideration of demolitions will be determined by the category of building (pivotal, contributing and noncontributing), its importance to the district, the structural condition of the building and the economic viability of the structure.
2. *The category of the building.* The property is categorized as non-contributing to the architectural and historical integrity of the Dayton's Bluff Heritage Preservation District and was constructed outside the period of significance for the District (1857-1930).
3. *The importance of the building to the district.* The house was constructed outside the period of significance of 1857-1930. Additional historical associations with the property such as persons that have contributed in some way to Saint Paul's history and development or an architect or an association with an important event have not been fully researched.
4. *Structural condition of the building.* There is no Code Compliance Report on file and the interior was not inspected by HPC staff.
5. *The economic viability of the structure.* Cost for rehabilitation and demolition are not available.
6. In general, the Secretary of the Interior's Standards for Rehabilitation recommend against removing buildings that are important in defining the overall historic character and destroying historic relationships between buildings and open space. The building is non-contributing to the overall historic character or rhythm of the District; now

**THEREFORE, BE IT RESOLVED**, the HPC finds that the proposed demolition of the building at 805 Hudson Road will have no adverse effect on the Program for the Preservation and architectural control of the Dayton's Bluff Heritage Preservation District (Leg. Code §73.06 (e)) for reasons outlined in the findings. If demolished, any future work at the site shall comply with the new construction guidelines for the Dayton's Bluff Heritage Preservation District, specifically Legislative Code § 74.90; and

**FINALLY, BE IT RESOLVED**, that a copy of this resolution will be forwarded to the Legislative Hearing Officer and City Council for the December 8, 2015 Public Hearing.
