

# Construction Update

## Trout Brook Nature Sanctuary and Regional Trail September 2013

**Clearing and Grubbing:** low quality trees and invasive species removed in the areas where excavation and fill is needed for the trail, pond, and stream areas.

**Demolition and Earthwork:** Buildings at 1202 & 1200 Jackson Street are removed. General earthwork starting in the south portion of the site for the pond and stream areas. Fill is being placed at the Maryland and Jackson parcel.
