

Construction Update

Trout Brook Nature Sanctuary and Regional Trail Week of May 19, 2014

Rain rain go away! Most of the area south of Maryland Ave. has been graded and seeded. We are waiting on trail paving and the public art installation. The restroom construction is 20% completed. Thank you to the MN Twins and Pohlad Companies for their participation in a volunteer planting event on May 16th! The event was funded as part of the MLB All-Star Series. Also, thank you to Great River Greening for their coordination of the event!

We have water!

Log Benches!

MLB Planting Event, May 16th.
