About

Krifcon Engineering P.C. is a boutique consulting engineering firm founded by Flemming J. Kristensen.

Kristensen's expertise in Engineering management, Client advisory services, Owner's representation, Project management, Design management, Sustainability and Energy efficiency, Resource conservation, Energy optimization of buildings and systems, Indoor Environmental Quality, and Peer Review/Audits are the basis of the services Krifcon offer.

The expertise is applied to development projects, new construction and refurbishment of office buildings, industrial facilities, exhibition and convention centers, mixed-use buildings, residential buildings, civic and cultural buildings, as well as educational buildings.

Kristensen has more than 20 years of experience in Europe and North America as an executive, manager, and consulting engineer in the construction industry. Previously to founding Krifcon, Kristensen headed the North American subsidiary of an international 500+ person multi-disciplinary consulting engineering firm.

He holds a Bachelor of Science degree from Copenhagen University College of Engineering and an MBA from University of Colorado Denver. Additionally, Kristensen is a licensed professional engineer, member of ASHRAE, accredited as LEED AP BD+C by USGBC, and as EUR ING by FEANI.

Krifcon Inc. is a business consulting firm specializing in connecting North American companies with Scandinavian and European companies and vice versa. Furthermore, providing consulting for clients in need of "on the ground" assistance in North America, merger and acquisition target research, etc.
