

# Golden's Deli Alley Renovation

275 4th Street East  
Saint Paul, MN 55101

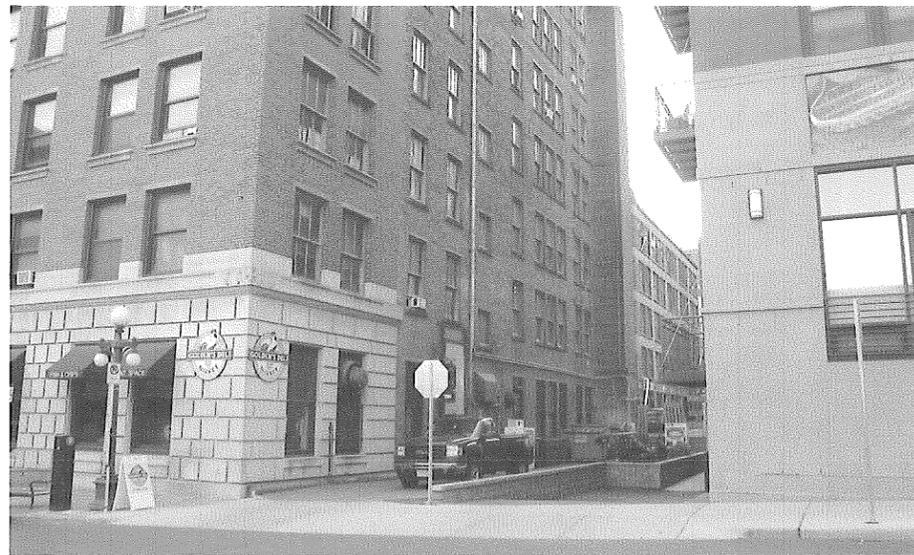

## PROJECT DESCRIPTION

1. Project involves renovation to existing alley space on the north side of the building.
2. The finished space will result in conversion of the existing alley into a seasonal restaurant patio.

1 Mezzanine Level with Alley  
 AS102 Scale: 1/8" = 1'-0"

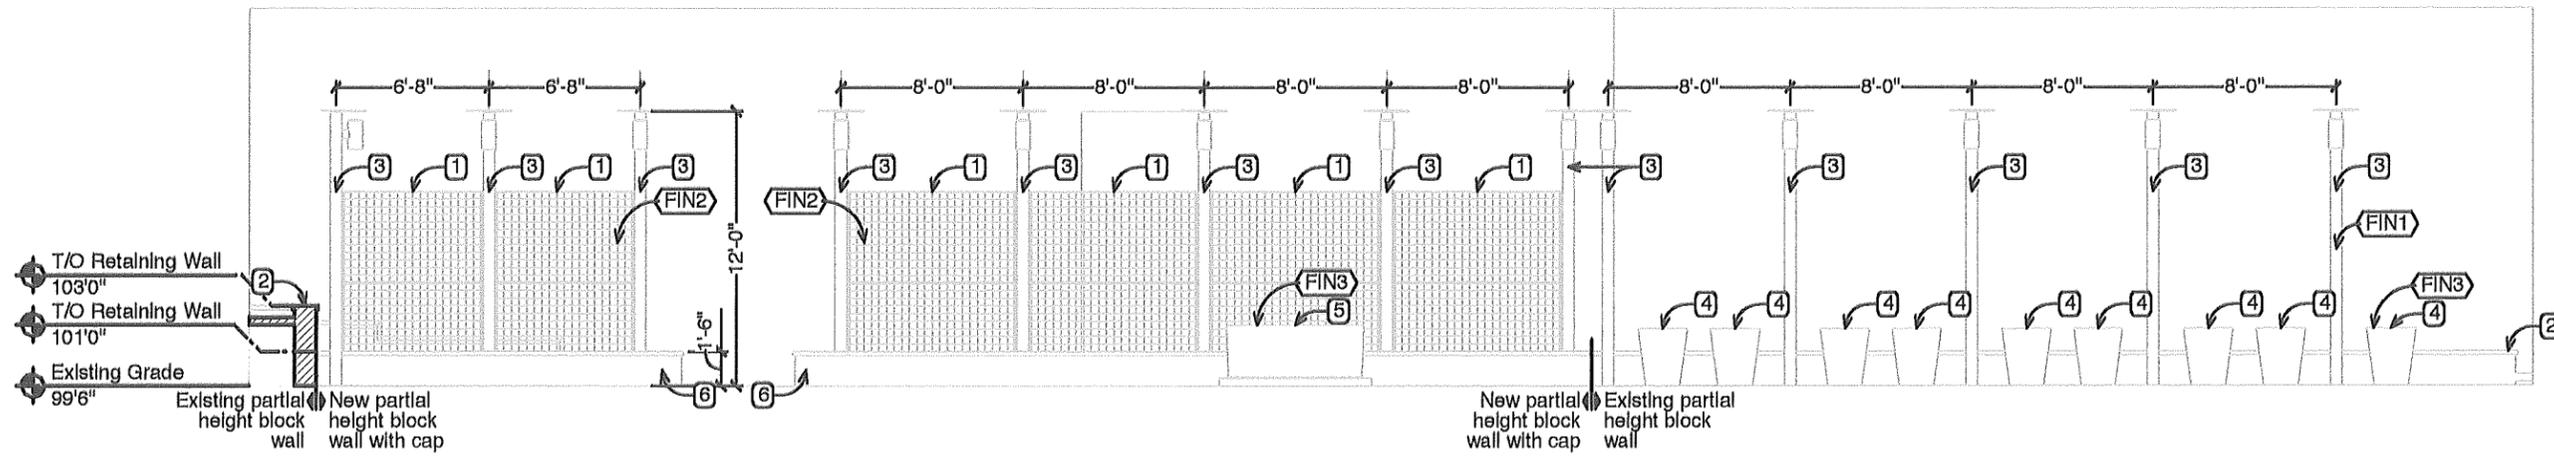

Hatch = Not In contract

**Site Plan Keynotes**

- 1. New sign
- 2. Existing bituminous surfacing
- 3. New salvaged cobblestone patio
- 4. Dining furniture by owner.
- 5. Existing walk
- 6. New partial height block wall; match existing partial height block wall
- 7. New GreenScreen® for climbing plants
- 8. New natural gas fireplace of 1/4" sheet steel on brick paver base. Provide new natural gas line via under-alley basement of Northwestern Building
- 9. New blackened steel planters with native ornamental grasses
- 10. Existing partial height block wall.
- 11. Existing alley drain - VIF exact location
- 12. New steel column with light - anchor bolt to concrete pier.
- 13. Overhead cable - max tension on cable = 500 lbs.
- 14. See section for connection to existing brick. Brick assumed to be in good condition; tuck point as required.

2- 3/4"  $\phi$  threaded rod, galvanized, with 10" embed with epoxy into existing brick. Use screen tubes as required. Bend rod down at 22.5° as shown.

3/16" welded plate; prime and paint

Cable with max 500 lbs tension

Existing conduit

3 Section Detail Through Pipe Cover  
AS401 Scale: 1 1/2" = 1'-0"

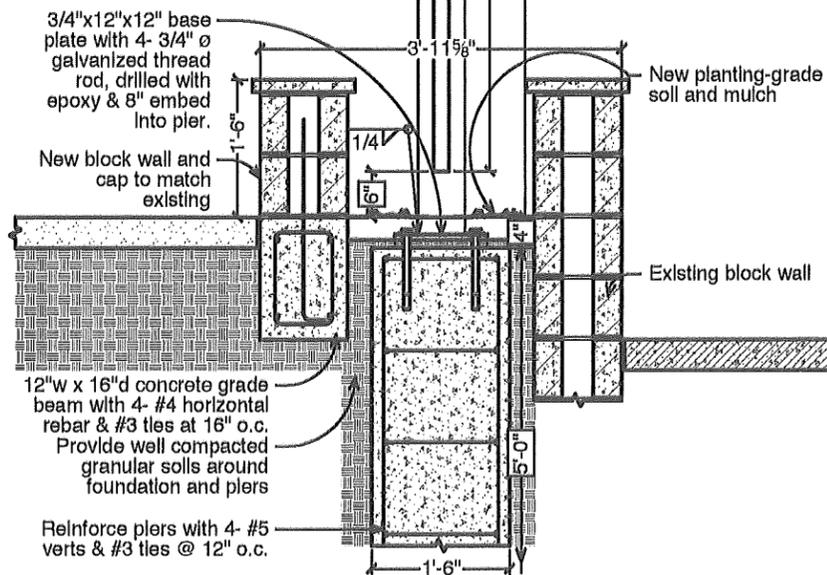

24" steel plate canopy/cover over light fixture; 1/2" radius fillet corners

Cylindrical down light fixture mounted to steel column; conceal junction box within column or as allowable by code

HSS 6"x6"x1/4" columns; prime and paint.

Greenscreen®

3/4"x12"x12" base plate with 4- 3/4"  $\phi$  galvanized thread rod, drilled with epoxy & 8" embed into pier.

New planting-grade soil and mulch

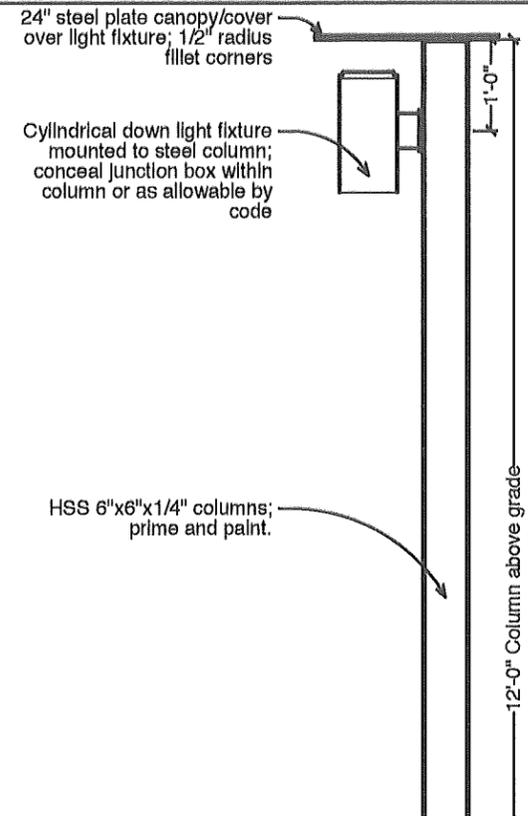

New block wall and cap to match existing

Existing block wall

12" w x 16" d concrete grade beam with 4- #4 horizontal rebar & #3 ties at 16" o.c. Provide well compacted granular soils around foundation and piers

Reinforce piers with 4- #5 verts & #3 ties @ 12" o.c.

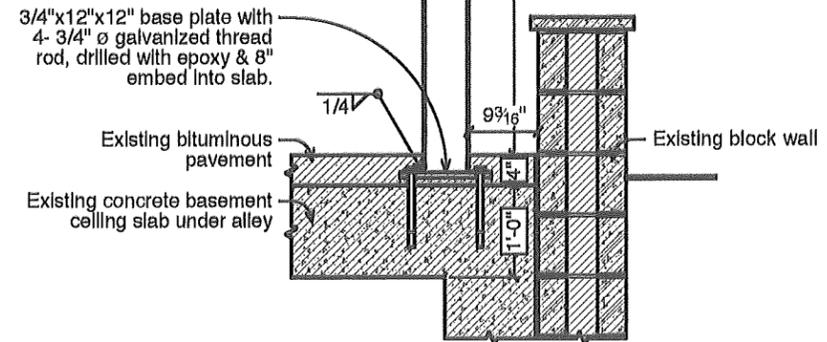

2 Section Detail at Steel Column at Pier  
AS401 Scale: 1/2" = 1'-0"

24" steel plate canopy/cover over light fixture; 1/2" radius fillet corners

Cylindrical down light fixture mounted to steel column; conceal junction box within column or as allowable by code

HSS 6"x6"x1/4" columns; prime and paint.

3/4"x12"x12" base plate with 4- 3/4"  $\phi$  galvanized thread rod, drilled with epoxy & 8" embed into slab.

Existing bituminous pavement

Existing concrete basement ceiling slab under alley

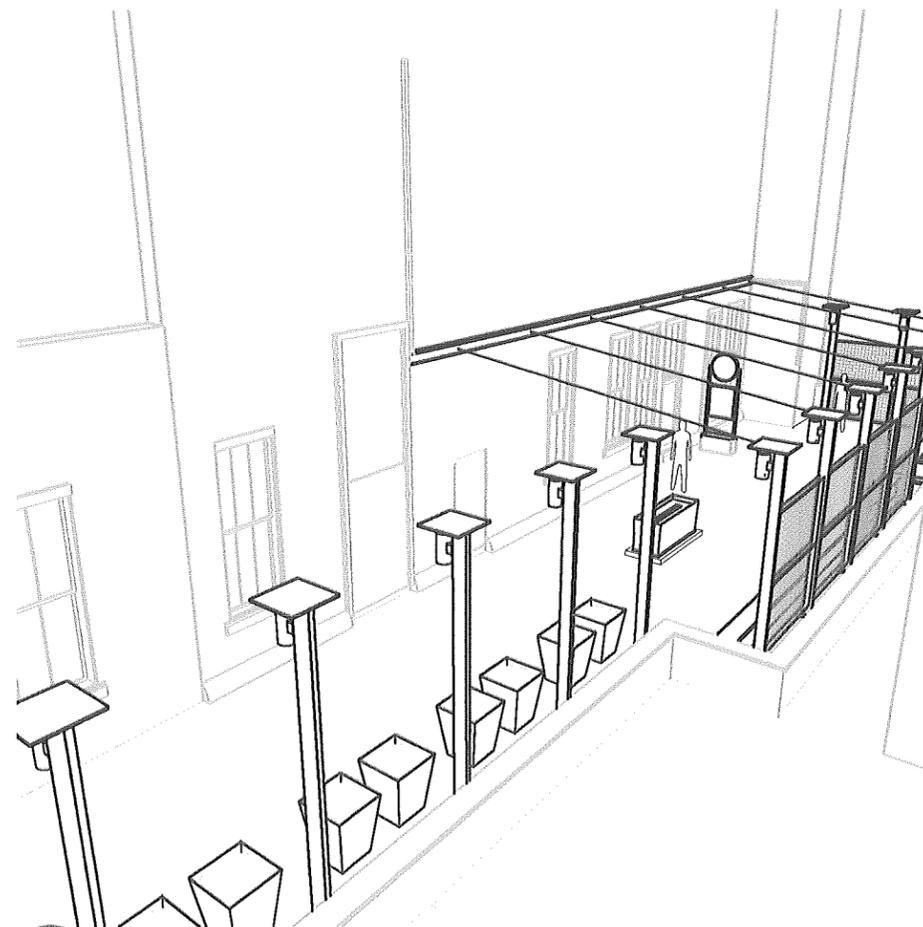

Existing block wall

1 Section Detail at Steel Column at Existing Deck  
AS401 Scale: 1/2" = 1'-0"
