

CONCEPT B ALIGNMENT

OVERVIEW

- Two-way bikeway on west side of Market Street, west side of St. Peter Street and south side of 12th Street
- I-94 bridge reduced to one motor vehicle travel lane
- Converts one block of Market Street (between 6th St and 5th St) to one-way motor vehicle traffic (northbound)

PROS

- Maintains parking/loading zones on the east side of street on the majority of the corridor
- Maintains two motor vehicle lanes along majority of corridor
- No modifications to St. Peter Street south of 6th Street

CONS

- Removes 62 on-street parking spaces on the west side of the corridor, and 6 curb extensions
- Reduces size of convertible space on Market Street between 5th-6th, impacting use of this space for special events
