

# The Twin Cities Electric Vehicle Mobility Network

Through a unique partnership, car-sharing in the Twin Cities will be more convenient, affordable, and accessible than ever before. This means communities that experience excess auto emissions will see cleaner air and people who are car-less will have more options. There will also be charging available for privately owned electric vehicles.

## What's Included in the new EV network?

Electric Vehicle Carshare Fleet + Public Curbside Charging Hubs

## What is Car Sharing?

Car-sharing provides the benefits of car access without the burden of car ownership. By becoming a member of a car-sharing network, you have access to cars throughout a service area for short-term rental.
