RE: Neighborhood STAR Proposals and Compliance with Saint Paul Comprehensive Plan

Background

The Neighborhood STAR program awards loans and grants for capital improvement projects in Saint Paul Neighborhoods, and is funded with 50 percent of the City's sales tax proceeds. More information on the program can be found here: <https://www.stpaul.gov/departments/planning-and-economic-development/economic-development/sales-tax-revitalization-star-0?NID=2894>.

This year, 74 proposals requesting over \$6 million in assistance will be vying for about \$1,150,00 from the Neighborhood STAR Program. Over \$25 million in potential private matching dollars have been identified. The average dollar request is \$40,839.

More detailed information includes:

- 43 applicants requested grant-only funds
- 31 applications seek funding to operate a relending/regranting program
- 62 proposals provide opportunities for commercial renewal (C on the attached spreadsheet)
- 7 requests are for public enhancements (PI on the attached spreadsheet)
- 5 proposals support housing development (H on the spreadsheet)

The Planning Commission is responsible for reviewing Neighborhood STAR applications for compliance with the Comprehensive Plan, per Minnesota Statute 462.356, Subd. 2 (full text at <https://www.revisor.mn.gov/statutes/?id=462.356>, excerpted below):

After a comprehensive municipal plan has been recommended by the planning agency and a copy filed with the governing body, [no] capital improvement [shall] be authorized by the municipality until after the planning agency has reviewed

the capital improvement and reported in writing to the governing body its findings as to compliance of the proposed improvement with the comprehensive municipal plan.

The Planning Commission's Comprehensive Plan compliance ratings are given to the Neighborhood STAR Board to inform their review of individual projects. The Neighborhood STAR Board's role is to make funding recommendations to the Mayor and City Council. The Planning Commission is not responsible for making judgments about the merits of individual projects or making recommendations about which projects should be funded.

The Planning Commission's input is explicitly requested to determine Comprehensive Plan compliance. Planning staff created a spreadsheet indicating which projects meet certain planning policy goals for the City. The spreadsheet has several categories which include: Adopted plans consulted, whether the project involves the ACP 50 geography (Area of Concentrated Poverty where at least 50 percent of the population is of color), near a Neighborhood Node, and/or involving a historic district or site, or potential historic district or site.

Applications were found to advance the following City policy goals:

- 52 (70%) of projects are in Neighborhood Nodes as identified in the 2040 Comprehensive Plan (one is citywide)
- 33 (45%) projects were identified to be in ACP50 areas (one was a citywide program)
- Only one (1) project was in a state historic district, four (4, 5%) proposals were in a historic preservation district, and four (4, 5%) proposals were in a potential historic preservation district.

Review for Comprehensive Plan Compliance

The attached spreadsheet lists all Neighborhood STAR applications. Staff first reviewed all applications for compliance with citywide chapters of the Comprehensive Plan, then reviewed each application for conformance with the relevant District and Small Area Plans by the planning staff assigned to that area. This year, planning staff used a 5 point scale to determine consistency with the plan. Below is the scale:

1. Not compliant with the Comprehensive Plan
2. Potentially conflicts with the Comprehensive Plan
3. Compliant with the Comprehensive Plan
4. Compliant with Comprehensive Plan and in an ACP 50 area

5. Compliant with the Comprehensive Plan and mentioned in a small area plan/station area plan (not necessarily in an ACP 50 area)

74 Total Neighborhood STAR Applications

- 74 (100%) applications are compliant with the Comprehensive Plan
- 35 (47%) projects received a score of three (3)
- 46 (35%) projects received a score of four (4)
- 13 (18%) projects received a score of five (5)

Below are a two highlighted projects that received a score of five (5):

- Victoria Theater Arts Center Renovation: Adaptive re-use of 5500 SF vacant silent movie house, including: 120 seat theater, flexible space, technical and dressing & lobby, replacement of all windows & doors, historic facade repair. This project is in an ACP 50 area and is specifically mentioned in the station area plan and the neighborhood plan. It is also within a the Frogtown Rondo Cultural Destination Area and it would be a beneficial land use within a cultural district.
- Wakan Tipi Center - A Dakota Environmental and Cultural Interpretive Center: Lower Phalen Creek Project seeks funds to build a 9,000 sq. ft. Dakota environmental and cultural interpretive center at Bruce Vento Nature Sanctuary. The facility will complement the sanctuary and draw more visitors. This project is not in ACP 50 area but is specifically called for by the D4 Plan and Trout Brook Lower Phalen Greenway Plan.

If you would like more information about a particular application's plan compliance, please contact Menaka Mohan at menaka.mohan@ci.stpau.mn.us, 651-266-6093, or about the application more generally, Neighborhood STAR staff Michele Swanson (Michele.swanson@ci.stpaul.mn.us, 651-266-6574 or Nancy Vang (Nancy.vang@ci.stpaul.mn.us) 651-266-6474).

Staff Recommendation

Planning staff recommends that the Comprehensive and Neighborhood Planning Committee forward the attached spreadsheet of Comprehensive Plan compliance ratings and the attached draft resolution to the Planning Commission with a recommendation for approval.

If you have questions, please contact Menaka Mohan at menaka.mohan@ci.stpau.mn.us or 651-266-6093.

**Rating of 2021 Neighborhood STAR Applications
for Compliance with the City of Saint Paul Comprehensive Plan**

WHEREAS, Minnesota State Statute 462.356 states that the planning agency shall review any proposed capital improvement and report to the governing body its findings as to compliance of the proposed improvement with the comprehensive municipal plan; and

WHEREAS, the Neighborhood STAR program funds capital improvement projects within the City of Saint Paul, and the Neighborhood STAR Board is reviewing applications to the Neighborhood STAR Program and will make funding recommendations to the Mayor and City Council; and

WHEREAS, the planning staff has reviewed and evaluated the applications for compliance with the Saint Paul Comprehensive Plan, its addenda, and other appropriate City policies as determined by City Council; and

WHEREAS, on May 12, 2021, the Comprehensive and Neighborhood Planning Committee discussed and approved Comprehensive Plan ratings and comments on the Neighborhood STAR applications and forwarded these to the Planning Commission in a memo dated May 13, 2021; and

WHEREAS, the Comprehensive and Neighborhood Planning Committee recommends that applicants for projects on properties that are found to be out of compliance with existing zoning regulations or permits be ineligible for Neighborhood STAR funds, either directly or as a sub-grantee; and

WHEREAS, the Planning Commission has reviewed these recommendations, and encourages the Neighborhood STAR board to consider the various planning themes that different projects may or may not fall under;

NOW, THEREFORE, BE IT RESOLVED, that the Planning Commission approves the attached Comprehensive Plan compliance ratings for the 2021 Neighborhood STAR applications and forwards the ratings to the Neighborhood STAR Board for its consideration.
