

Minnesota Street Survey #2: Design Possibilities

Introduction

The City of Saint Paul plans to reconstruct 0.5 miles of Minnesota Street from Kellogg Blvd to 11th St. Your input is essential in helping shape this project.

This survey is one of two parts of the Fall 2021 engagement phase. The other part is a virtual meeting occurring on October 5, 2021 at 6pm. Visit www.stpaul.gov/MinnesotaStreet for the call-in details for that virtual meeting. We hope to see you there!

Please note that this survey is in English. If you need this translated or in an alternative format, please call us at 651-266-6100.

1. Which language do you primarily speak?

- English. Need this translated or in an alternative format? Please call us at 651-266-6100.
- Español. ¿Necesita esta traducción? Comuníquese con nosotros al 651-266-6100.
- Somaali. Ma u baahan tahay tarjamadaan Nago soo wac 651-266-6100
- Hmoob. Xav tau qhov no txhais los? Hu rau peb ntawm 651-266-6100.

2. Did you take the Minnesota Street Survey #1 in Spring/Summer of 2021? [You can see the questions and results from that survey here.](#)

- Yes
- No, this is my first survey for the Minnesota Street Reconstruction project
- I'm not sure

Minnesota Street Survey #2: Design Possibilities

OPTIONAL: Tell Us About Yourself

3. With which race or ethnicity do you most identify? (select all the apply)

- African
- American Indian or Alaska Native
- Asian or Asian American
- Black or African American
- Hispanic or Latinx
- Native Hawaiian or other Pacific Islander
- White or Caucasian
- Prefer not to answer
- Other (please describe):

4. What is your gender identity?

- Female
- Male
- Non-binary
- Other (please describe):
- Prefer to self-describe
- Prefer not to answer

5. What is your home zip code?

Zip Code:

Minnesota Street Survey #2: Design Possibilities

Needs and Wants

We've developed a short list of "wants" based on feedback from the previous survey, engineering input, and policy direction. These questions are designed to understand how important each of these features are to you.

6. Not everything will fit into the right of way (public space) or into the budget. How would you prioritize the following features on Minnesota Street?

Landscaping (plants or shrubs, street trees, hanging baskets with vegetation)

Furnishings (benches, trash cans, wayfinding signs, etc.)

Car Parking (metered, on-street)

Extra wide walkways or waiting areas

Protected, two-way bicycle facility

Bicycle Parking

7. In just a few words, what is your primary "want" for Minnesota Street? (can be the same or different from the ranking you just completed)

Minnesota Street Survey #2: Design Possibilities

Option #1

Option 1

8. Option #1 provides a protected two-way bike facility, is compatible with city policies that prioritize pedestrians, bikes, transit, then cars, and has good snow plow and removal conditions.

What I like about this option is:

What I would change about this option is:

9. On a scale of 1-10, how would you rate Option #1 for Minnesota Street?

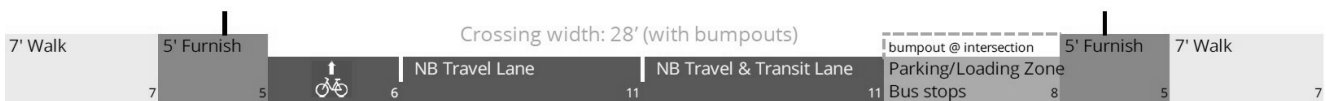

0 - I do not like this option at all

10 - This option is perfect

Minnesota Street Survey #2: Design Possibilities

Option #2

Option 2

10. Option #2 provides a one-way on-street bike facility, maintains some on-street parking and loading zones, and has the potential for curb bumpouts.

What I like about this option is:

What I would change about this option is:

11. On a scale of 1-10, how would you rate Option #2 for Minnesota Street?

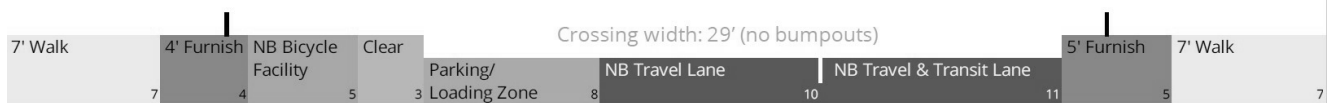

0 - I do not like this option at all

10 - This option is perfect

Minnesota Street Survey #2: Design Possibilities

Option #3

Option 3

12. Option #3 provides a one-way protected bike facility and maintains some on-street parking and loading zones.

What I like about this option is:

What I would change about this option is:

13. On a scale of 1-10, how would you rate Option #3 for Minnesota Street?

0 - I do not like this option at all

10 - This option is perfect
