This lot is platted at 39.5' x 125', for a size of 4,937.5 square feet. The zoning code limits the lot coverage for principal buildings to 35% of the lot or 1,728 square feet. - B. Applicant - Lisa Jansen (22-055449)
Location - 1671 Summit Avenue
Zoning - R3
Purpose: Minor Variance
The applicant is converting the existing structure into a single-family dwelling with an attached three-car garage on the rear and a open-covered porch on the side. Two variances are requested: 1) Given that this property adjoins a public alley, 1/2 of the alley is included in the size of the lot for lot coverage purposes. The resulting lot size is 18,900 square feet. The zoning code limits the lot coverage for principal buildings to 35% of the lot or 6,615 square feet. The structure currently covers 6,392 square feet, or 33.8%. The proposed additions increase the lot coverage to 39.2% or 7,412 square feet, for a variance of 4.2% or 797 square feet. 2.) The zoning code requires a rear yard setback of 25'; 18.75' is proposed, for a variance request of 6.25'.

Attached garages shall be set back from the front lot line as far as the principal structure; the proposed garage would project in front of the principal structure, for a variance of this requirement. 4.) A primary entrance of principal structures shall be located within the front third of the structure; the garage addition would cause the primary entrance to be located in the rear 2/3 of the structure, for a variance of this requirement.
