

Robert Street Reconstruction

Downtown Saint Paul's Commercial Corridor

SAINT PAUL
PUBLIC WORKS

Project Overview

The City of Saint Paul plans to reconstruct eight blocks of Robert Street in downtown Saint Paul, from I-94 to Kellogg Boulevard.

Reconstruction is needed to repair and replace sidewalks, pavement, and utilities.

Improvements include all new:

- ✓ Sidewalks, boulevards, and trees
- ✓ Curb, gutters, and storm water systems
- ✓ Pavement and lane markings
- ✓ Traffic signals and signage
- ✓ Underground utilities

Timeline

Project Goals

The reconstruction of Robert Street presents a once-in-a-generation opportunity to achieve the City's vision of what a modern downtown corridor can be: safe, livable, inviting, active, a center of regional economic activity – and equitable for all. The following project goals will guide this reconstruction project.

Create a vibrant and welcoming place for everyone

Support efficient and reliable transit service through downtown

Improve mobility for all modes of travel

Create an accessible and safe environment for people who walk and roll

Enhance street-level commerce

Facilitate a community engagement process that addresses the needs of all stakeholders

Improve and replace aging roads, sidewalks, and utilities in 2025 and 2026
