

ABOUT THIS PHASE OF THE PROJECT:

The City Parks and Recreation department is working on a draft regional trail master plan for an off-street bicycle connection between the Mississippi River Gorge Regional Park and The Sam Morgan Regional Trail via Summit Avenue Parkway and Downtown Saint Paul.

In this phase, the draft will reflect progress on an overall planning framework, existing conditions analysis, engagement processes, design approach, and implementation outline for a regional facility.

Following the master plan draft process, the City would finalize recommendations for a regional trail facility to Parks and Transportation Commissions, City Council, and Metropolitan Council Parks and Open Space Commission (MPOSC). If the master plan is approved, then Parks and Recreation would need to secure funding for design, engineering, and construction of the future trail. Further design will be required to advance important aspects of the project beyond the master planning phase in order to prepare a project for construction.

PROJECT HIGHLIGHTS

- » Proposed 5.4 mile regional trail along Summit Avenue, Kellogg Boulevard, and Eagle Parkway from Mississippi Gorge Regional Park to Samuel H Morgan Regional Trail
- » Connects with proposed segment of the Capital City Bikeway at Kellogg Boulevard

PROJECT GOALS

- » Improve recreation experience and safety for all user and abilities
- » Preserve historic corridor and trees by removing parking in strategic locations
- » Improve east-west connection from Mississippi Gorge Regional Park to Samuel H Morgan Regional Trail via downtown.

STAY ENGAGED!

- » Check out the project website where you can:
 - Following the Open House, you can view and provide feedback on the draft Master Plan document
 - Sign up for e-mail updates about the project
 - Review previous meeting materials, recordings, and project information
 - See future project updates

Summit Avenue Regional Trail Master Plan

October 2022

Community
Open House

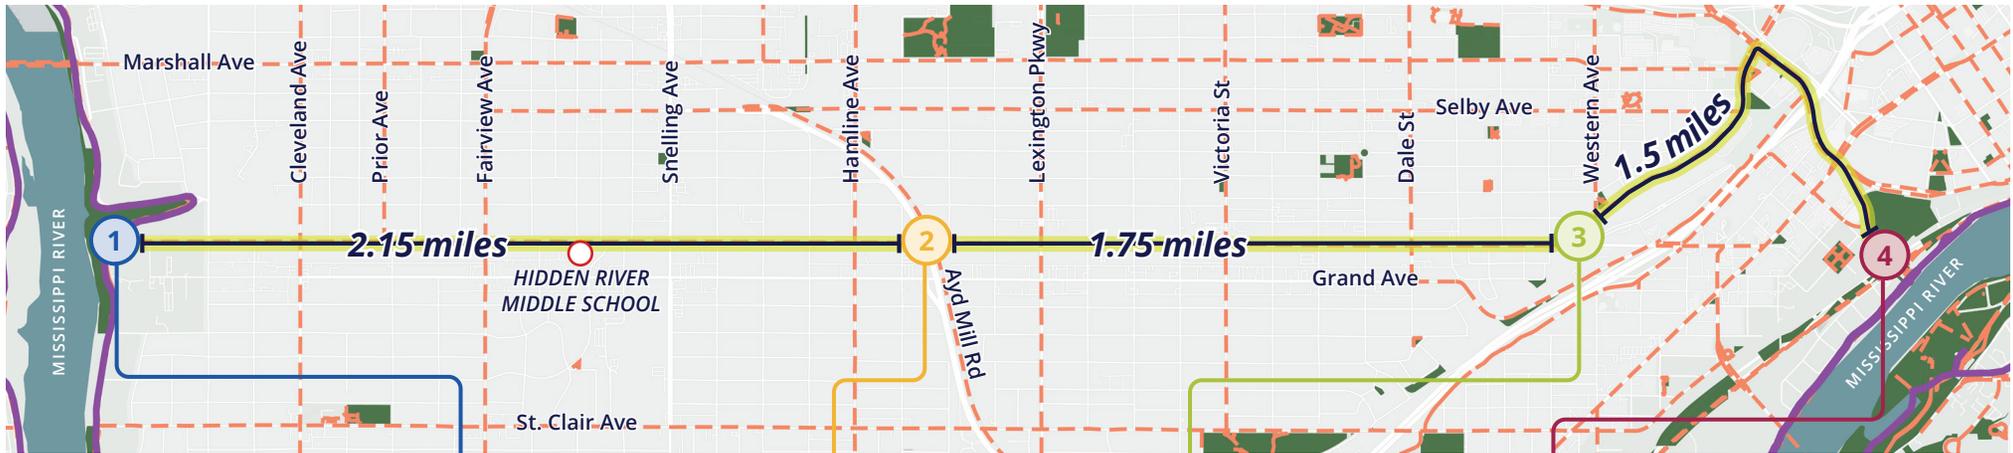

SELF GUIDED CORRIDOR TOUR

Check out the proposed Summit Avenue Regional Trail corridor!

The proposed Summit Avenue Regional Trail corridor provides connections to natural amenities including the Mississippi River and local parks, as well as other trails and transit routes such as the A Line BRT, and the Samuel H Morgan Regional Trail. Enjoy the tree lined parkway and unique character of Summit Avenue as you bike, walk or drive the corridor!

LEGEND

-  Proposed Trail Corridor
-  Regional Trail
-  Bikeway
-  Parkland

Connection to the River
Connect to Mississippi Gorge Regional Park and Mississippi River Boulevard Trail

Connection to Other Trails
Stop at Short Line Park to see the potential connection at Ayd Mill Rd (a designated regional trail search corridor)

Connection to Parks
Visit a park! Connect here to Summit Overlook Park, Nathan Hale Park, and Cochran Park

Connection to Downtown and the River
Connect to downtown Saint Paul, the Samuel H Morgan Regional Trail, Upper Landing Park, and Chestnut Plaza
