

Safe Streets for All

Transportation Safety Action Plan

SAINT PAUL
PUBLIC WORKS

Project overview

The City of Saint Paul is developing a Transportation Safety Action Plan to identify and eliminate fatalities and serious injuries from vehicle crashes for everyone (pedestrians, bicyclists, transit users, and drivers).

With community input, this plan will prioritize roadway and infrastructure projects that address safety challenges for residents of Saint Paul and support future funding opportunities for safety projects.

The plan will center the people and communities most affected by traffic-related injuries and fatalities—including pedestrians, bicyclists, and people in historically underserved communities—to improve safety for all users.

The City's goal is to reduce and eliminate traffic fatalities and injuries for everyone in Saint Paul.

Pedestrians

Bicyclists

Transit users

Drivers

Why this matters

Once completed, actions and projects identified in this plan will help eliminate traffic crashes and address issues like reckless and distracted driving and high traffic speeds.

We need your help to understand your safety challenges. Your input is critical to our success and will determine which transportation safety projects to prioritize.

Project timeline

Spring 2023	June 2023	Summer 2023 – Winter 2024

Project goals

.....

-  Adopt a Transportation Safety Action Plan to prioritize transportation safety projects identified by Saint Paul residents.
-  Apply for Federal Safe Streets for All funding. If awarded grant, implement safety projects.
-  Determine physical infrastructure projects, strategies, and policies that address and reduce traffic crashes.
-  Improve how the City selects and designs future projects that improve transportation safety.

A safer Saint Paul for all

.....

This plan will support the City's goals to:

- Secure funding for future safety projects that reduce traffic fatalities and injuries, advancing the City's focus on transportation safety.
- Center equity in planning to include historically excluded communities of color to create a safer and more equitable transportation system.

We want to hear from you!

Share your thoughts on how to make Saint Paul safer for pedestrians, bicyclists, transit users and drivers:
