

## CONCEPT A

This feedback was collected by City staff during Rec Check at the Duluth and Case Recreation Center on April 18th, 2023. Approximately 10 students participated, and these students ranged in age from kindergartners to 5th graders.

The design team brought images (shown to the left) of potential play areas that could replace the existing play area at the Recreation Center. Students were asked to share what they liked and didn't like, what additional pieces of equipment or amenities they'd like to see, and any other general feedback.

### Play Equipment

#### Like

- Oodle Swing (group swing)
- Spinners
- Bouncers

#### Want To See

- Zipline / Track Ride
- 'Tower' Structure
- Overhead spinners
- Spiral Slides
- Net Tunnel
- Kids like to do parkour in play area

#### Dislike / Didn't Prefer

- Mixed feedback about Jig-Jag Climber
- Mixed feedback about Net Climbers
  - » Didn't prefer the more vertical climbers, preferred the Cargo Net structure
- Freestanding Slides
- Swiggleknots

### Colors and Themes

- Like the colors shown in the renderings, especially the bright blue
- One student interested in jungle theme and/or colors
- One student interested in pink

### Site Furnishings and Other Comments

- Desire for sand area
- Want more shade, including shade in the play area
- One student interested in a rules sign
- Desire for seating, 'hang out' space in the play area

### Next Steps...

- Review student comments and revise concepts based on feedback.
- Refine play area design concept.
- Continue to engage with community members at the Recreation Center and Community Council.

## CONCEPT B

Students generally preferred Concept B, with some components from Concept A
