

## Permit Applicant Checklist for Commercial Flat Roof Projects

The City of Saint Paul will no longer allow reroof permits to be issued on-line (express) for commercial properties. Building permit applications for reroofing of flat roofs will be required to be submitted to our office via fax, USPS, or email for review. Below are items required to be identified on this form and the submitted documents along with the building permit application, to perform a review of the project and issue a building permit for the work.

**FAX:** 651-266-9099

**Email:** [DSI-BuildingPlanReview@ci.stpaul.mn.us](mailto:DSI-BuildingPlanReview@ci.stpaul.mn.us)

### Complete the following checklist items
