RE: Alley Snow plowing for alley between Berkeley/St Clair and Snelling/Macalester

In the spring of the year, it does not pay for us to plow when in a few days it will be melting. The season you are paying for is November 1, 2023 through March 31, 2024. If you need to be plowed before or after these dates, there will be an additional charge of \$75.00 per time that will need to be paid in advance.

Please choose one of the following options:

Basic service is: \$475.00 for the season. We will automatically come out to plow your location if we get 2" or more snow within 12 hours of the snowfall ending. If we get less than 2" of snow or drifting or alley openings got plowed in and you want your alley plowed, you will need to call 715-XXX-XXXX to request this service. This is an extra charge of \$75.00 and will need to be paid in advance.

Basic service plus an automatic return plow: \$800.00 for the season. We come through after the snowfall of 2" or more within 12 hours of the snowfall ending. Two days later we will automatically come back and plow the alley again and make sure the openings are all cleaned up from where the city plows may have left a snow ridge from plowing.

Once you decide to choose one of the above services for your snowplowing needs, please sign and mail the contract with payment in full made out to:

XXX Snowplowing

Please remember, we determine if it is a 2" snowfall, this is non-negotiable. It is very frustrating for someone in the alley to call and argue about this and when we get there, it is literally a 1" snowfall except for one spot in the alley that may have drifted to 2" and the City trucks have not even plowed the streets.

If you have any questions, please feel free to call my cell phone at: 715-XXX-XXXX or email me at XXXX

We hope you enjoy the fall season and stay Safe and Healthy!

Sincerely,

Tony

Snow Plowing Contract

This is a snow plowing agreement for the winter season of November 1, 2023 through March 31, 2024, for P and F Snowplowing to plow the alley of:

Berkeley/St Clair between Snelling/Macalester (T-Alley)

We will automatically come out to plow your location if we get 2" or more snow. If we get less than 2" of snow or drifting or the alley openings are deep with snow from the city plow trucks, you will need to call 715-607-1270 to request our truck to come back out to plow. This is an extra charge of \$75.00.

For alley snowplowing, we do our best to distribute the snow evenly on both sides of the alley. We do not plow or clean off garage aprons or driveways.

It is the resident's responsibility to mark decorative rock, wood, blocks or plants because once it snows, we cannot see where these are. We need all branches, limbs, brush, etc. trimmed a minimum of 12 inches away from the edge of the alley and 7 feet above the alley to prevent damage to our equipment. **Please be sure garbage and recycle cans are not on the edge of the alley.** We need to keep the alley plowed as wide as we can.

This agreement is for snowplowing service only. In the spring of the year, we do not rake grass or repair lawn damage or any other damage from where snow was pushed or piled.

I am choosing the following service for the November 1, 2023 through March 31, 2024 winter season:

Basic Service for the season: \$475.00 _____

Basic Service + one automatic return for the season: \$800.00 _____
