The Saint Paul Downtown Streets and Sidewalk Plan will develop a vision for the transportation network. The current working vision is that the network will be safe, convenient, and vibrant. The network facilitates downtown becoming a renewed center of energy in the region that connects diverse businesses, residents, and visitors throughout the year. To be resilient to land use and travel pattern changes, the network focuses on connecting people safely and comfortably, prioritizes the pedestrian experience and how people feel on the street, and reduces automobile dependency.
