

## ***City of Saint Paul Sewer Assessment Program Packet***

### **Program Information and Instructions**

#### **Who is eligible?**

- Any property owner who owes no delinquent taxes on a property in the City of Saint Paul is eligible to apply. Prior to submitting the sewer assessment application form, property owners must contact the Sewer Utility at 651-266-6234 or PW-SewerCounter@ci.stpaul.mn.us to confirm their eligibility.

Eligible repair work includes the following:

- Repair of an existing sanitary sewer service.
- Replacement of an abandoned or removed sanitary sewer service that is or was located along the alignment of a previously functioning sanitary sewer service. Please note that this program cannot be used for the construction of a new sanitary sewer service along an alignment that previously did not have a functioning sanitary sewer service.
- Disconnection of a rainleader.
- Rerouting of a private storm sewer service from the City's sanitary sewer system to the City's storm sewer system.

Participation in this program is voluntary. Property owners have the option to arrange for private financing. Please call the Sewer Utility at 651-266-6234 to verify that you qualify to use this program.

#### **What are the eligible costs?**

- Only costs (parts, labor, restoration, etc.) deemed necessary for performing any of the work listed above.

#### **What forms need to be filled out and returned to the Sewer Utility?**

- Before any work is done, the following must be submitted to the Sewer Utility for review and approval:
  - An application form (included in this sewer assessment packet) signed by the property owner.
  - **At least three estimates** are now required for all private sewer repair work \$10,000 or higher. A list of licensed sewer contractors who are authorized to perform this type of work is included in this sewer assessment packet. Please contact them for estimates. For repair work on a private sandrock sewer service, the city may approve the use of a contractor who is not on the list. Contact the Sewer Utility to discuss your estimates. Note that the decision of which licensed sewer contractor ultimately performs the work belongs to the property owner.
- After the work is completed, the following must be submitted to the Sewer Utility for processing by the property owner:
  - A Repair Completion form (included in this sewer assessment packet) signed by the property owner.
  - A copy of the final invoice of the work performed by the licensed sewer contractor.

#### **How does the contractor get paid?**

- After the work is completed and all required forms are received and approved by the Sewer Utility, the City's Finance Department processes and mails out a check to the contractor on the property owner's behalf (see the included Repair Completion form).

#### **How does the property owner pay for the work done?**

- The assessment is payable over 20 years with interest.
- The City's Real Estate Division processes a special assessment for the cost of the work done and sends it to the City Council for ratification. You will be notified of your interest rate at the time of ratification. The ratified assessment is then certified to the County, with charges appearing on the property owner's real estate tax statement the following year.
- The fixed interest rate for this program is subject to change without notice. For more information

regarding the interest rate, please call **651-266-6234**. An administrative fee of \$70 is added to the total cost of the work done.

- Through real estate property taxes, the property owner pays the charges (sum of the cost of the work done, \$70 administrative fees, and the interest charges) over a twenty-year period, starting the year after the City Council ratifies the assessment.
- Payment in full without penalty can be made any time prior to end of the twenty-year period.
