

Jackson Street Reconstruction

Jackson Street Detours

SAINT PAUL
MINNESOTA

Construction is beginning soon. Parking spaces on Jackson Street between Valley Street and University Avenue will be removed. Please consider making arrangements to park elsewhere beginning July 7th.

Jackson St Detour

The city will be closing Jackson St from University Ave to Pennsylvania Ave. Northbound and southbound traffic will be rerouted to the detour shown below. Jackson residents and businesses will have access during construction. All other traffic will need to follow detour. Estimated duration of closure to last until fall 2025.

Mt Airy/Winter St Detour

The city will be closing Jackson St from University Ave to Pennsylvania Ave. East and westbound traffic along Winter St and Mount Airy St will be routed to the detour shown below. Jackson residents and businesses will have access during construction. All other traffic will need to follow detour. Estimated duration of closure to last until fall 2025.

Scan the QR code for more construction information.
