The Heritage Preservation Commission (HPC) and Heritage Preservation staff review applications for exterior work on designated heritage preservation sites (except painting or plant materials).

Heritage Preservation staff are available to discuss prospective projects. It is advisable to get as much information as possible while the project is in early planning stages. The Heritage Preservation Commission offers Pre-Application or Concept Review for large or complicated projects.

The amount of time required for review of the application depends on the type of work, the complexity of the project, documentation received, and conformance with the applicable guidelines. Staff reviews and approves many applications while others need to be reviewed and approved by the Heritage Preservation Commission. Some applications can be reviewed by staff in a few days. If the application is to be reviewed by the HPC the process generally takes about 30 days once all documentation is received.
