**Citywide Sewer Work: Central Ave
August 2025**

Dear Saint Paul Resident or Property Owner:

The Saint Paul Public Works Sewer Utility is working with a contractor (Minger Construction) to construct a new storm sewer on Central Ave at the intersection of Kent Street. This will resolve a reoccurring drainage issue at the intersection. *See map included with this letter for details.*

The drainage improvement work will begin the week of August 18th. Anticipate repairs (including surface restoration) will be completed within a 3-4 week duration (as weather allows).

How this impacts you:

- Central Ave will be closed for the duration of this work, driveway access will be limited. Please see the back of this letter for details.
- Signs will be posted near the construction site. Please follow all posted signs.
- There will be no impacts to your sewer service.

What is the cost?

There is no cost to property owners for the drainage improvement.

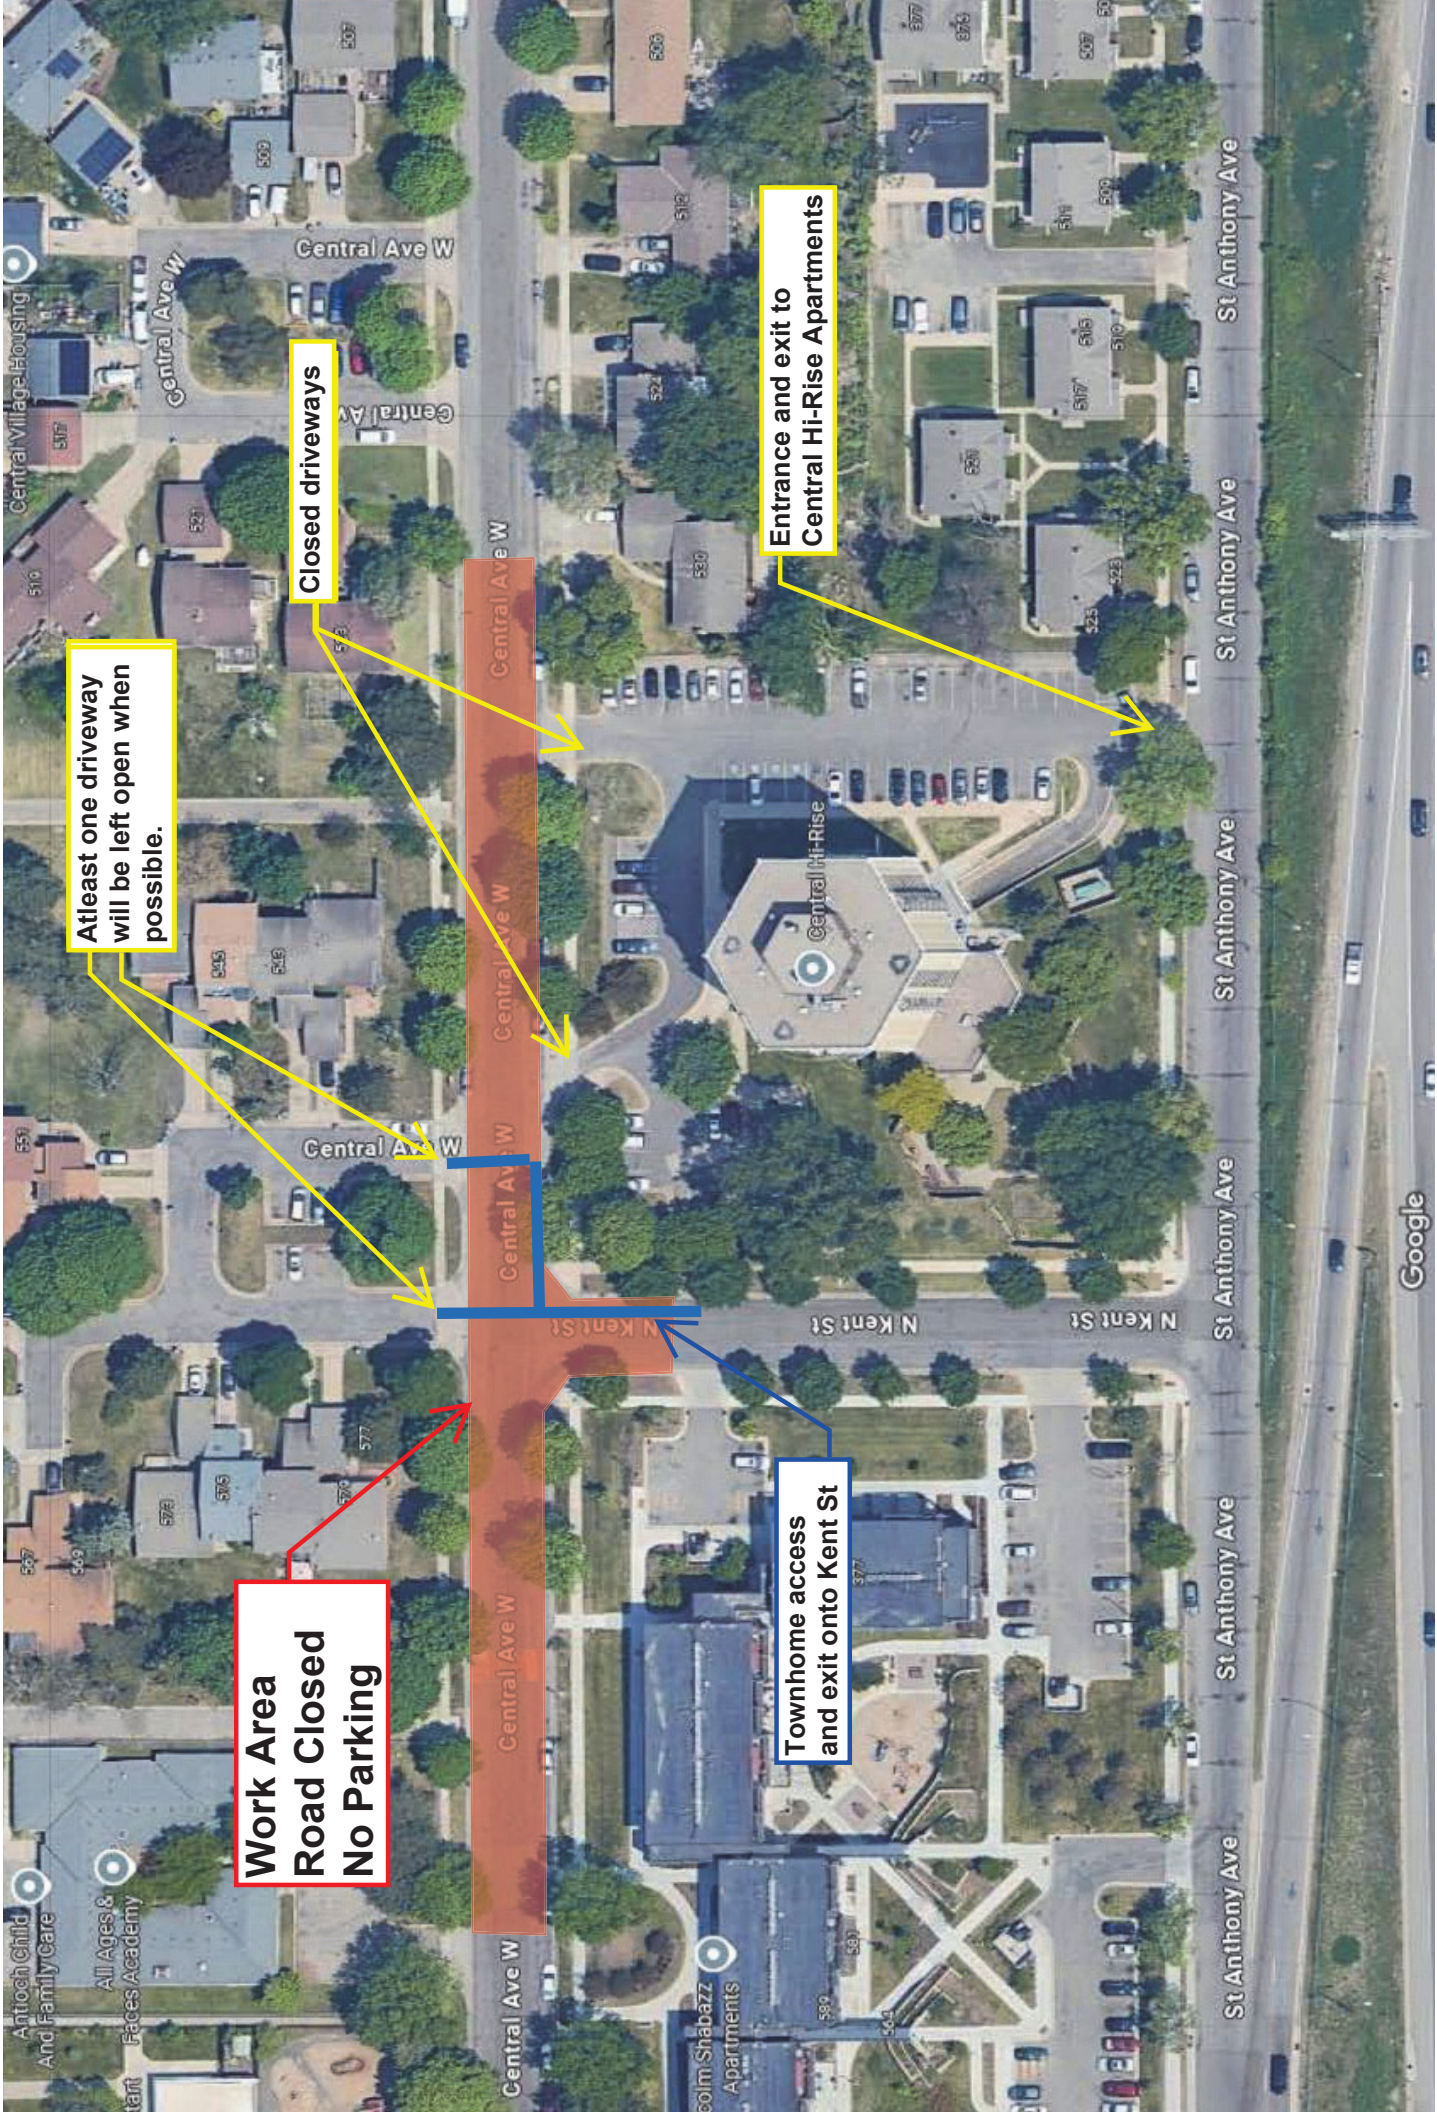

Questions:

For questions about the sewer work, please contact Nathan Florek at 651-266-5708 or Nathan.Florek@ci.stpaul.mn.us.

Sincerely,

Aaron Hass, P.E.
Civil Engineer IV
