

Introducing Saint Paul's

STREET MAINTENANCE SERVICE PROGRAM

The City of Saint Paul has restructured, in a more fair and equitable manner, how we pay for maintaining our streets. The new Street Maintenance Service Program replaces the Right-of-Way Maintenance Assessment. You will continue to receive the same level of service, and we will continue to keep our streets and businesses safe.

In 2017, property owners will continue to receive a Street Maintenance Service Program bill for the following:

- Street lighting
- Street sweeping
- Street repair programs, also known as seal coating (every eight years) and mill and overlay

The City will continue to provide the following through the General Fund, including:

- Snow plowing and pothole patching
- Tree trimming and removal
- Traffic signs
- Pavement markings
- Litter pick-up

In 2018, it is possible that some of the services provided through the street maintenance program will continue to be paid by the City's General Fund. This means that property owners will pay for these services based on the value of their property. Residents will continue to be charged for street services based on their street frontage. **Estimated property tax and street service fees are provided below.**

	2017 (estimated)				2018 (with restructuring)			Change
