

House Sewer Contractor License

Any person who has had at least three (3) years' experience in responsible charge of minor sewer work involving knowledge of trenching, bracing, tunnel work, pipe laying in public streets and all other matters pertaining to and incidental to such sewer work, is eligible to apply for a license. Your application will be reviewed by employees within the Sewer Utility Division. You will be notified by phone or email whether your application has been approved or disapproved. If you have been approved, you are eligible to take the written exam.

If you feel you meet the qualifications, you may submit an application to the Saint Paul Sewer Utility Division. You can request an application by calling Bill @ 651-266-6241 or the Service Desk @ 651-266-6234.

There are three ways you can submit your completed application. You can mail it to:
Sewer Utility, Attn: Bill Awker, 700 City Hall Annex, 25 W. 4th St., St. Paul, MN 55102. Fax: 651-298-5621 or email: bill.awker@ci.stpaul.mn.us

The written exam is closed book and requires a passing score of 70%. The Sewer Utility will examine the applicant as to his practical knowledge of the work required for the construction of sewer connections and on his knowledge of the specifications, rules and ordinances governing the work of constructing sewer connections. Should the applicant fail to pass the examination, they may take a second examination. Should the applicant fail the second examination, the applicant will not be eligible to retake the written exam for a period of one year from the date of last examination, at which time he may file a new application.

If you pass the written exam, you qualify for a House Sewer Contractor license. The Sewer Utility will contact the Department of Safety and Inspection (DSI) and notify them of your passing. DSI will require you to complete their application. You may apply in person at their office located in downtown St. Paul at 375 Jackson St. Suite 220 or you may request an application by calling Laura Benton at 651-266-9102. Along with the application you will need to provide them with a \$10,000 surety bond as required in Section 338.03 (b) of the Saint Paul Legislative Code in a form acceptable to the City Attorney and to DSI which would be the original copy. The bond shall be so conditioned as to guarantee that such work as the House Sewer Contractor is to be permitted to perform in accordance with ordinances governing this class of work, and in accordance with these specifications, rules, regulations and conditions; and shall be further conditioned to protect and save harmless the City of Saint Paul from any and all liability, damage and expense which said City may sustain by reason of authorizing such permit work.

All insurance requirements of DSI which is a general liability policy with the City listed as additional insured shall also be met. In addition, a license fee must be paid. Please call the DSI office at 651-266-9090 for the current license fee.

In the event that the bond or insurance should be canceled, expire, or in any way no longer in affect, the House Sewer Contractor 's license will be held as invalid until proof of approved bond or insurance is again furnished. No work will be allowed in City right-of-way during the interim.

Each license is good for one year and expires on the anniversary of the date when the license was issued. A renewal fee, if paid on or before the expiration date, shall be the annual fee as set by DSI. A license allowed to expire may be reinstated with a penalty of 10% per month, or any portion thereof, up to a maximum of 50% of the current annual license fee.
