

Stryker Avenue Zoning Study

Proposed Zoning

Zoning Districts

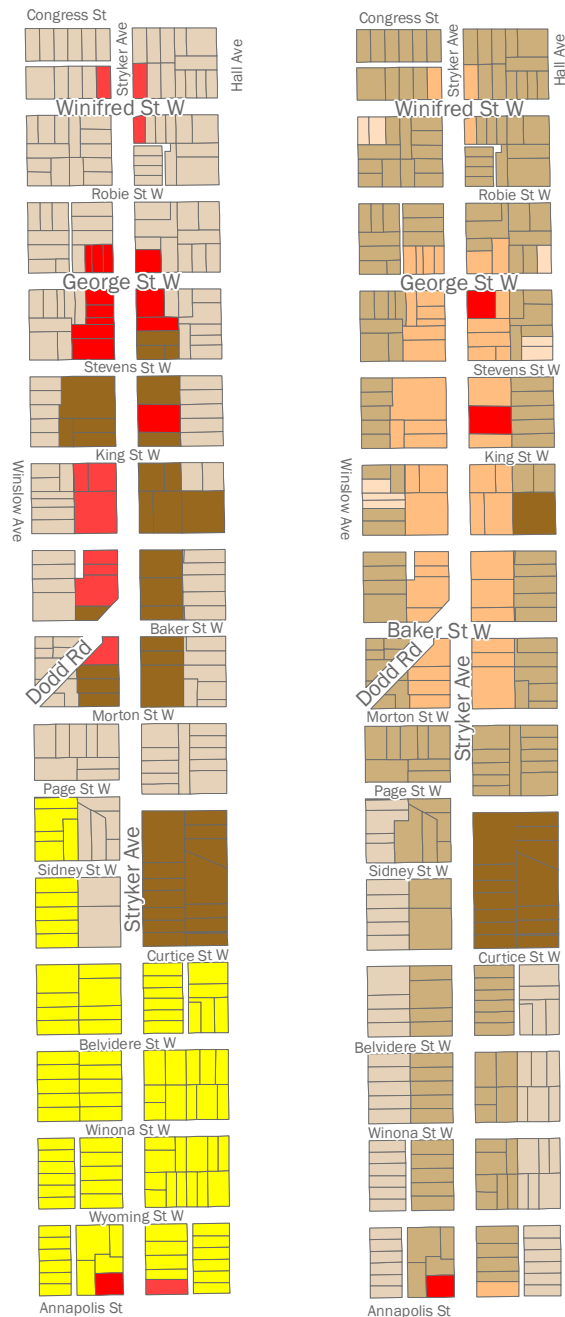

The zoning along this corridor currently consist of primarily RT1 Two-Family and R4 One-Family, with scattered RM2 Multiple-Family, B2 Community Business, and B3 General Business.

- R4 One-Family**
 R4 One-Family is an extremely low-intensity zoning district which allows primarily single-family homes, as well as neighborhood institutions such as libraries, religious institutions, and schools.
- RT1 Two-Family**
 RT1 is a low-density dsitric that allows everything allowed in R4, as well as two-family homes (duplexes).
- RT2 Townhouse**
 RT2 is a low-intensity district that allows everything allowed in RT1, as well as three- and four-family structures and townhouses. Townhouses are dwelling units attached horizontally (not vertically). In RT2 Townhouse, no more than six townhouses may be built as a single building.
- RM2 Multiple-Family**
 RM2 is a medium-intensity district that allows everything allowed in RT2 as well as multi-family buildings and community residential buildings such as senior housing and emergency housing. RM2 has a basic height maximum of 50 feet.
- T1 Traditional Neighborhood**
 T1 Traditional Neighborhood is a flexible low-intensity district providing for a compact, pedestrian-oriented mix of residential, office, and service uses of limited size and neighborhood scope. Traditional Neighborhood districts carry more intense dimensional and site regulations.
- T2 Traditional Neighborhood**
 T2 Traditional Neighborhood is a medium-intensity district providing for a flexible, compact, pedestrian-oriented mix of residential and commercial uses along transit routes and nodes. Traditional Neighborhood districts carry more intense dimensional and site regulations.
- B2 Community Business**
 B2 Community Business is intended to serve a mid-sized consumer population that generate large volumes of vehicular and pedestrian traffic.
- B3 General Business**
 B3 General Business provides for diverse business types that generate large volumes of vehicular traffic and is intended for use along major traffic arteries.

Existing Zoning

Final Recommendation
