Program Description

Recreation for Preschoolers is a program for children ages 3 - 5 years, held at Edgcumbe Recreation Center. Our emphasis is placed on providing a warm and nurturing environment along with giving emotional support and encouragement. The program's objective is to provide a quality environment for the total development of the child. It is our belief that children learn by doing. A variety of activities are provided to encourage language, cognitive, gross motor, fine motor and social skills. Our education emphasis is on thematic units and early literacy skills. Each month your child will learn about a preschool theme. Themes include countries, animals, social, scientific and seasonal topics. Daily activities include group time, discovery areas, language development area, creative arts area, quiet area, snack, and projects, outside time, gym time and weekly show & tell. The toys, games and manipulatives are routinely rotated to keep the children interested.

*******ALL CHILDREN MUST BE TOILET TRAINED*******

Children who require diapers, training pants, or pull ups are not considered toilet trained.
