IF you find you must
sell the Annex - Allow a
passway or Access thru the

Hopefully move meetings before finalization of any plans as it is clear the direction and needs need to be fleshed out a little more.

What could have gone better?

Rather than members publicly speaking /
resigning their role - they would have been less disruptive
to submit a letter to the group and allow the group to do
its work. - they were good after
starting with the public ☺
