

Resolution # 18-14
Parkland Diversion At 270 Lexington Pkwy N

PROJECT DESCRIPTION:

The Minnesota Department of Transportation has requested to purchase a permanent easement and temporary construction easement on the northwest corner of the parcel containing Oxford Community Center. The purpose of this request is to allow for the construction of ADA-compliant upgrades of pedestrian facilities at that corner of the intersection. There is not sufficient existing ROW to accomplish this.

STAFF COMMENTS:

The request is similar to other ROW easement acquisitions for intersection work. The area being acquired is currently unprogrammed mowed lawn and will not impact any current park activities. Staff recommends granting the easements

REQUEST OF THE COMMISSION:

Adopt Resolution # 18-14 recommending granting a permanent easement for highway purposes and a temporary easement for construction at 270 Lexington Pkwy N.

COMMUNITY CONCERNS:

No community comments have been received on the proposal.
