1. Welcome (6:00 pm)

2. Recap from Meeting #2 (6:05 – 6:15 pm)

3. Presentation of Concept Plan (6:15 – 7:00 pm)

4. Discussion on Concept Plan (7:00 - 8:00 pm)

5. Questions / Next Steps

   a. Meeting 1 — Site tour, discuss goals and objectives, site analysis
   b. Meeting 2 — Conceptual drawings based on goals and objectives
   c. Meeting 3 — Refined concept based on feedback (September 7th)
   d. Open House — Presentation of final concept to larger audience (October 5th)
   e. Meeting 4 — Final concept reflecting comments from Open House (November 2nd)
Concept 1 (Sculptural)

- Unique restrooms that define entrance into play area.
- Sculptural play element relating to natural environment.
- Sand and water play promoting social interaction and tactile stimulation.
- Central play element with tree house theme.
- Play area with defined place spaces surrounded by vegetation.

PAVED TRAIL
MAIN ENTRANCE
RESTROOMS
SAND/WATER PLAY
PICNIC AREA
PLANTING AREA
PLAY STRUCTURE - 5-12 YEAR OLD
PLAY STRUCTURE - 2-5 YEAR OLD
ROCK SCRAMBLE
FENCING/WALL AROUND PLAY AREA

PLAY AREA: 32,380 SQ. FT.
Concept 2 (Nature based)

- Infrastructure Services: The concept includes a central play element that promotes wildlife observation along the flyway. Utilization of natural materials is emphasized throughout the park to create an authentically nature-based environment.
- PICNIC AREA
- MAIN ENTRANCE
- RESTROOMS
- 2-5 PLAY AREA
- "MISTING" BOULDERS COMBINED WITH STREAM PLAY
- "NATURE" PATH
- VEGETATIVE BUFFER AROUND PLAY AREA
- PLAY MOUND - 5-12 YEAR OLD
- SWING AREA
- ROCK HIDE-A-WAY

PLAY AREA: 39,600 SQ. FT.

- Informal pathway through native plantings
- "Misting" boulders to offer relief from heat
- Stream play, include sand play area
- "Misting" boulders to offer relief from heat
- Vegetation buffer around play area
- Use of natural materials
- Central play element promotes wildlife observation along flyway
Concept 3 (Traditional)

PLAY STRUCTURE - 2-5 YEAR OLD
PICNIC SHELTER - CONNECTED TO PLAY STRUCTURE
PICNIC AREA OVERLOOKING RIVER
VARIOUS PLAY EVENTS (SPINNING, SWAYING, ETC)
ZIP LINE
FENCING/VEGETATIVE BUFFER
SAND / WATER PLAY
PAVED TRAIL

PLAY AREA: 44,820 SQ. FT.
General Consensus on Concept Plans:

- One main entrance into play area
- Concern with parking being too close
- Liked integrating restrooms as sculptural gateway into play area
- Provide a variety of picnicking opportunities
- Integrate various plant species for sensory experience
- Include artistic sand and water play
- Use natural materials as much as possible
- Play mound has many opportunities for play (climbing, sliding, etc.)
- Use natural grades as much as possible and limit ramps
- Concern for sun. Integrate shade as much as possible.
- Include musical elements and moving panels for limited hand motion.
VICTORIA PARK
Universally Accessible Play Area

Concept

- Restrooms
  - Gateway into site
  - Gateway into site
- Bench
- Swing Bay
- Concrete Surfacing
- Concrete Path
- Wavy Boards
- Play Mound
- Climbing Play Element
- Picnic Shelter
- Embankment Slide/Roller Slide
- Nature Path
  - Picnic tables
  - Tactile plants
  - Musical instruments
- Native Planting
- Artificial Turf
- Picnic Table
- Parking Lot
- Future Park Development

Future Park Development

- Trail
- Seat Wall
- 2-5 Play Space
- Play Mounds
- Sand-Water Play
- Misting Rocks
- Swaying Glider
- Merry-Go-Round
- 5-12 Play Space
- Roller Table
- Bridge Over Path Connecting to Play Structure
- Rubber Surfacing
- Shade Structure
- Interactive Panels
  - Wildlife Viewing/Binoculars/Custon tactile panels
- Rock Hide-Away
- Picnic Table
- Rock Scramble
- Picnic Table
