JIMMY LEE PLAY AREA

CONCEPT PLAN

December 14, 2016

PLAY AREA LAYOUT: Option 2:

- The play area container is entirely new
- Picnic slabs and grill area remain but replaced with new concrete
- Enlarged picnic space for two tables
- New bench seating area
- Sign
- Parking lot is removed to create an open lawn space for play and running around
- Earth mound for play: Rolling, jumping, sledding, viewing
- A central shared paved space adds seating areas and a focal point for art, gardens, or a water feature
- New concrete pathways curve and wind through the site creating opportunities for 'Looping'
- Area for embankment slide
- Perimeter fence is added to enclose the lawn area
- Hillside is reseeded and regraded and replanted for erosion control
- The play area container is entirely new

Central Activity Zone
Art/Garden/Water

Swings
1,288 sf

Play Equipment for ages 2-5
1,319 sf

Play Equipment for ages 5-12
3,359 sf

Parking lot is removed to create an open lawn space for play and running around

Picnic slabs and grill area remain but replaced with new concrete

Enlarged picnic space for two tables

New bench seating area

Sign

Parking lot is removed to create an open lawn space for play and running around

Earth mound for play: Rolling, jumping, sledding, viewing

A central shared paved space adds seating areas and a focal point for art, gardens, or a water feature

New concrete pathways curve and wind through the site creating opportunities for 'Looping'

Area for embankment slide

Perimeter fence is added to enclose the lawn area

Hillside is reseeded and regraded and replanted for erosion control

The play area container is entirely new
