**Determination of Economic Integration/Minimum Set-Aside Fraction**

**Project Fraction**

Project fraction must be consistent with the selected Economic Integration percentage and must meet or exceed the selected Minimum Set-Aside Threshold.

Show number of low income units in the project divided by total number of units in the project. Do not include common space unit, if any.

$$\frac{\quad}{\quad} = \frac{\quad}{\quad}$$

(e.g.,  $\frac{50}{59} = .8475$ )

**\*Please note that the actual Applicable Fraction may be different at the end of the first year of the credit period depending on the number and size of eligible units at that time. The actual credit amount may be lower than the amount shown here.**

I certify that to the best of my knowledge and belief the above information on Page 1 and Page 2 of this Exhibit A is true and correct.
