PROPOSED LANGUAGE MAP

Alternative Financial Establishment Possible Locations

Alternative financial establishment possible locations

 Current language possible locations

This map depicts the locations where new alternative financial establishments could be established under the proposed text amendment. The map was created by first selecting the zoning districts where alternative financial establishments are a permitted or conditional use and then subtracting buffers from residential districts and specific uses listed in standards (a) and (b).

Standards and conditions:

(a) The alternative financial establishment shall be located at least one hundred fifty (150) feet from any lot in a residential district or lot occupied with a one-, two-, or multiple-family dwelling, measured in a straight line from the closest point of the building in which the business is or is to be located to the closest point of the residential property line.

(b) The alternative financial establishment shall be located at least two thousand six hundred forty (2,640) feet from any other alternative financial establishment and one thousand three hundred twenty (1,320) feet from any pawnshop, measured from the nearest building wall of the existing establishment to the nearest building wall of the proposed use.
