

OPEN HOUSE FOR REIMAGINE THE RAILWAY: Studying new uses for the Ford Spur

Please join us to learn more about the exciting opportunity to “Reimagine the Railway” and think about new uses for the Ford Spur—a rail line that once served the Ford Motor site from downtown Saint Paul. The study will examine opportunities to redevelop the 5-mile railway corridor for walking and bicycling, taking into consideration its potential future use as a transit corridor. You will hear more about project progress and will have a chance to give the City your thoughts on concepts for how this corridor will look and function in the future. **We hope to see you there!**
