

# SAINT PAUL FOR ALL

## TRAFFIC AND TRANSIT

- All of the proposed zoning changes are occurring within a quarter mile of the new A Line stations and at transit nodes.
- The A Line BRT buses have a crush load of 70 people with 10 minute headways in both directions

Graphic shows the amount of space required to move the same amount of people in cars, bikes, and in buses

### Transit Lines

- A-Line BRT Station Locations
- Transit Stops
- Transit Routes
