ZONING COMMITTEE STAFF REPORT

1. **FILE NAME:** Arlington Auto Repair LLC  
   **FILE #** 19-078-373
2. **APPLICANT:** Arlington Auto Repair LLC  
   **HEARING DATE:** September 12, 2010
3. **TYPE OF APPLICATION:** Nonconforming Use Permit - Reestablishment
4. **LOCATION:** 1431 Rice Street, Southwest corner at Arlington Avenue
5. **PIN & LEGAL DESCRIPTION:** 24.29.23.41.0001; Hager’s Subdivision of Lots 1,2,3,4,5,6,7, 14,15,16,17,18 of Walcott’s Addition to Cottage Homes, Lots 33 thru 38, Block 4
6. **PLANNING DISTRICT:** 6
7. **ZONING CODE REFERENCE:** § 62.109(e), § 61.107, § 62.109  
   **PRESENT ZONING:** T2
8. **STAFF REPORT DATE:** September 5, 2019  
   **BY:** Kady Dadlez
9. **DATE RECEIVED:** August 23, 2019  
   **60-DAY DEADLINE FOR ACTION:** October 21, 2019

A. **PURPOSE:** Reestablishment of nonconforming auto repair use.
B. **PARCEL SIZE:** The corner property has 150 feet of frontage on Rice Street and is about 125 feet in depth for a lot area of about 18,750 square feet.
C. **EXISTING LAND USE:** The property is vacant. The previous use was an auto repair station.
D. **SURROUNDING LAND USE:**
   - North: Non-profit office and restaurant uses in a T2 zone and residential uses in an RT1 zone.
   - East: Auto convenience market and restaurant uses in a T2 zone
   - South: Food market and dental office uses in a T2 zone.
   - West: Single family homes in an R4 zone.
E. **ZONING CODE CITATION:** § 62.109(e) lists the conditions under which the Planning Commission may grant a permit to reestablish a nonconforming use. § 61.107 and § 62.109 authorize the Planning Commission to impose conditions and limitations in granting approval of nonconforming use permits.
F. **PARKING:** Zoning Code § 63.207 requires a minimum of 10 off-street parking spaces for the proposed use; the site plan submitted shows 20 spaces.
G. **HISTORY/DISCUSSION:** In spring 2019 the Department of Safety and Inspections received several complaints about inoperable vehicles and auto repair activity occurring on the property. An order was issued for all inoperable vehicles to be removed from the property and for illegal auto repair activity to cease prior to obtaining the proper zoning and licensing approvals; the vehicles have since been removed. The current applicant is not related to the party referenced above that was operating without required approvals. The auto repair garage license that was previously assigned to the property was cancelled at the request of the license holder in 2017. Because more than one year has passed since auto repair was permitted as a legal nonconforming use, a reestablishment of nonconforming use permit must be obtained to continue use of the property for auto repair. The previous auto repair license permitted a maximum of 20 cars to be parked on the premises during business hours and no more than 10 when the business is closed. Numerous complaints were received in previous years about trash in the alley, tall grass and weeds, and snow and ice on sidewalks. There are several previous zoning cases for this property, including a permit for an oil station in 1965, a conditional use permit for an auto sales, service, and rental in 1984, and site plan reviews in 1991 and 2007; all were approved.
H. DISTRICT COUNCIL RECOMMENDATION: The North End Neighborhood Organization had not taken a position on the permit application at the time the staff report was drafted.

I. FINDINGS:

1. The applicant has a purchase agreement to acquire the property and intends to operate an auto repair business. The existing structure has three service bays (two fronting Rice Street and one facing Arlington Avenue), a customer waiting area, and an office. Hours of operation are proposed to be 9:00 a.m. to 6:00 p.m. The applicant states that the site has 19 parking spaces, five of which will be used for employees and 14 for customer car parking.

2. Section 62.109(e) states: When a legal nonconforming use of a structure, or structure and land in combination, is discontinued or ceases to exist for a continuous period of more than one (1) year, the planning commission may permit the reestablishment of a nonconforming use if the commission makes the following findings:

   (1) The structure, or structure and land in combination, cannot reasonably or economically be used for a conforming purpose. This finding is met. The structure is designed for auto repair use and cannot be reasonably or economically used for a conforming purpose.

   (2) The proposed use is equally appropriate or more appropriate to the district than the previous legal nonconforming use. This finding is met. Because the proposed and previous uses are the same, the proposed use is equally appropriate to the district as the previous legal nonconforming use, provided that in no case shall more cars be parked on the property than were permitted for the previous nonconforming use, according to the license cancelled in 2017.

   (3) The proposed use will not be detrimental to the existing character of development in the immediate neighborhood or endanger the public health, safety, or general welfare. This finding can be met with a condition attached to the permit requiring approval of a site plan, drawn to scale, that meets current standards for an auto repair station. The following items must be addressed during site plan review to improve the appearance and operation of the property: the screening fence must be repaired or replaced; the parking lot surface must be resealed and striped; and landscaping must be installed in the buffer area along Rice Street and Arlington Avenue. In addition, the tires, trash, and junk should be removed from the south side of the building.

   (4) The proposed use is consistent with the comprehensive plan. This finding can be met with a condition attached to the permit requiring approval of a site plan, drawn to scale, that meets current standards for an auto repair station. The Land Use chapter identifies this stretch of Rice Street as a mixed-use corridor and the intersection at Arlington as an opportunity site. Policy 1.53 states, “Encourage changes to the design of existing auto-oriented commercial buildings and areas with elements of traditional urban form to minimize impacts on the pedestrian realm”. Objective LU5 of the North End District 6 Plan calls for attractive commercial districts, and strategy LU5.1 encourages existing auto related businesses to upgrade the appearance of their building and properties and discourages the growth of new auto related businesses. Strategy LU5.3 calls for utilizing the Rice Street Guidelines when existing commercial buildings are renovated or improved. The Rice-Larpenteur Vision Plan promotes design excellence in all aspects of the corridor.
(5) A notarized petition of at least two-thirds of the owners of the described parcels of real estate within one hundred (100) feet of the subject property has been submitted stating their support for the use. This finding is met. The petition was found sufficient on August 23, 2019: 14 parcels eligible to sign, 10 parcels required to sign, and 11 parcels signed.

J. STAFF RECOMMENDATION: Based on the findings above, staff recommends approval of a reestablishment of nonconforming use permit for auto repair, subject to the following conditions:

1. The applicant shall obtain approval of a site plan, drawn to scale, that meets current standards for an auto repair station. The following items shall be addressed during site plan review to improve the appearance of the property: the screening fence shall be repaired or replaced; the parking lot surface shall be repaved and striped; and landscaping shall be installed in the buffer area along Rice Street and Arlington Avenue. The number of parking spaces shall be determined through site plan review. In no case shall more cars be parked on the property than were permitted for the previous nonconforming use, according to the license cancelled in 2017.

2. Tires, trash, and junk shall be removed from the south side of the building.

Executive Summary and Business Plan

Arlington Auto repair is a single member LLC owned by Daniel L Gellb. A qualified manager with auto repair experience will be appointed to manage the auto repair facility. Our goal is to offer automotive repair services for all makes and models of vehicles primarily to residents and businesses in and around the St Paul neighborhood at affordable prices. We intend to provide wonderful customer service and competitive market priced repairs in order to get the market share.

Currently the location has 3 repair bays and a customer waiting area and an office which we intend to keep it the same way. As per the site plan, there are 19 parking spots of which we plan to use 5 for employee parking and 14 for customers parking. The initial business hours will be Monday through Saturday from 9.00am to 6.00pm.

Please let me know if you have any question.
