Property within the proposed Special Sanitary Sewer Availability Connection Charge (SSSACC) district will only be affected by the SSSACC charge if there is development that generates new sanitary sewer (SAC) demand.

The initial City SSSACC district charge will be $1,245 per new SAC demand. The number of City Sewer Availability Charge (SAC) units generated by new development will be determined per the Sewer Availability Charge Procedure Manual of the Metropolitan Council Environment Services Division, 2019.

The City SSSACC charge must be paid prior to City issuance of a building permit.
