2020 Mill and Overlay Notice Eustis Street: Highway 280 to Lauderdale City Limits

September 24, 2020

Dear Saint Paul Property Owner,

The City of Saint Paul is working to improve the streets in your neighborhood. In the coming weeks, Saint Paul Public Works and its contractor will begin a “mill and overlay” paving project on Eustis Street from Highway 280 to the Lauderdale city limits. Prior to the mill and overlay, crews may also be working to repair or replace catch basins and/or ADA-compliant pedestrian ramps at the corners.

About the mill and overlay process:

Mill and overlay work is done on Saint Paul’s arterial (or main) streets. Crews will “mill,” or remove approximately two inches of the roadway and then “overlay,” or repave the street with new asphalt. The repaving portion is weather dependent, but the entire process typically takes two to four days. Road striping will be completed following the repaving of the street.

What you need to do:

- Please move your car off the street. We will post “No Parking” signs the day before the project begins.
- Cars that are not moved will be ticketed and towed.
- The street will have temporary closures or lane restrictions during milling and repaving operations. We will try to maintain driveway access, but there may be temporary access restrictions.
- Please notify tenants/renters and visitors about the project and parking restrictions.

Project costs:

All abutting property owners will be charged a fee of 50% of the mill and overlay project cost. The city pays the remaining 50% of the project cost. Property owners will receive a bill for the repaving project after the work has been completed.

The estimated rate for the Eustis Street mill and overlay project is \$35.85/front linear foot.

Project updates:

For any questions, please call 651-266-9700. To find project updates and additional information online, please visit www.stpaul.gov/construction.

Thank you,
