ALLEY RECONSTRUCTION IS HAPPENING ON YOUR BLOCK!

What is happening?
The alley bounded by Western Avenue/Virginia Street/Aurora Avenue/Fuller Avenue is being reconstructed as part of the Wheelock Parkway Phase IV project currently underway.
How will you be impacted?
The alley will be closed to thru traffic and access will be limited during construction. We anticipate the timeline to be less than 1-week, weather permitting.
What about recycling and garbage collection?
We will coordinate with recycling and garbage haulers to minimize any disruption to regular collection schedules. Additional information will be provided once the work is scheduled.

When is it happening?
We anticipate Phase IV to be completed by mid-November 2019. Timing of the alley work is planned for early September.
What's a typical work day schedule?
The typical work day is 7:00 a.m. to 6:00 p.m. Monday through Friday. There may be occasions when working past this time or on weekends is necessary.
Where can you get project information and updates?
Weekly project updates for the Wheelock Parkway Phase IV project can be found online at www.stpaulgov/construction .
