Construction is Happening for the Grand Avenue Pedestrian Safety Improvements Project

August 21, 2018

What is happening?

We are making intersections safer! Crews will construct curb extensions (bump-outs) and upgrade traffic signals to improve pedestrian crossings.

When is it happening?

Work is expected to begin on Monday, August 27th and continue through the last week in October 2018.

How will you be impacted?

Work will occur at intersections from Hamline Avenue to Victoria Street. Grand Avenue will be open to traffic, but turn lanes and parking lanes near the intersections may be impacted during construction. Some cross streets will be closed for two-to-three weeks during the project. Timing for the closures will be updated on the project webpage.

What are the benefits of the project?

- Improved pedestrian safety.

Where can you get project information and updates?

www.stpaul.gov/construction.

Who should you call with questions or concerns?

Contact Project Inspector Mike Malszycki at 612-518-3178.

Thank you,

HunWen Westman
Project Engineer
