St. Paul Permit Paint the Pavement Program

Thursday, August 23, 2018

Outline

- Overview and goals of the program
- Biggest accomplishments
- How things have evolved over time
- Vision of the future of this program

Requirements

- Local, residential streets with low traffic volume
- Not in construction project area
- Not to be seal coated in current year

Goals

- Community building
- Placemaking
- Traffic Calming

Photos

Process

- Contact Public Works Traffic Engineering to determine if eligible
- Organize event, fund raise, petition, get block party permit
- Submit design, maintenance agreement, completed block party permit, petition for Public Works approval

Overview of Recommendations

- **Administrative Changes**

- Update database to allow for online renewals
- Simplify signs

- **System-wide Changes**

- Standardize the number of permits – 3 vehicle stickers and 2 visitor placards per household
- Create consistency within areas to the extent possible
- Make enforcement and use easier for everyone

- **Area Specific Changes**

- Create consistency of time restrictions within an area, to extent possible
- Merge adjoining areas, where possible

Quote

The whole process of community-building, knowing our neighbors better, displaying public art, traffic calming, and doing a big thing together has transformed our neighborhood in so many positive ways over the past 12 years.

Thank you for your help and feel free to brag about us within the city structure.
