Street Construction is Happening in Your Neighborhood in 2021

Summit Avenue Reconstruction Project

Dear Property Owner:

The City of Saint Paul's Department of Public Works will be reconstructing Summit Avenue between Lexington Parkway and Victoria Street (see project map). Construction is scheduled to begin mid-May of 2021 through November of 2021.

What will the street reconstruction project do?

The Summit Avenue Reconstruction Project will include the installation of new concrete sidewalk, ADA-compliant pedestrian ramps at corners, new curb, new street pavement, and any needed improvements to the sanitary and storm sewer systems.

To minimize the impact to property owners and visitors, the project will coordinate additional construction efforts with local utilities such as Xcel Energy, District Energy, Saint Paul Regional Water Services, and telecom companies where possible.

What do I need to know and do now?

Public Works is beginning the design stage of the project. To support our efforts, please contact our project engineer to share any scheduled or potential construction projects for your building or the public right-of-way area that could take place in 2020 or 2021 (including projects that might block or use the sidewalk, boulevard, or streets).

Please share this project information with tenants and businesses to keep them informed on how this reconstruction project may impact them, their clients, and visitors.

How will the project affect me and/or my business?

During the construction work in 2021, the road will be closed to vehicle traffic. Pedestrian access to homes and businesses will be maintained.

How is the project being funded?

The Summit Avenue Reconstruction Project is funded by Municipal State Aid funds and assessments from the abutting property owners. Assessment rates have not yet been set.

Updates

Details about the project are still to be determined. A community meeting will be held later in 2020. For project updates, visit the project website at www.stpaul.gov/construction.
