

Attachment D - Certified Vendor List

Currently, we self-perform the vast majority of our collections contract work with the City of St. Paul. We subcontract with Aspen and Walters to collect at ten MUD-B properties that require a front-load dumpster collection. The total work subcontracted for these properties is about 1.5% of our total MUD-B collections work.

Outside of our contract work, we prioritize working and partnering with local, MBEs, SBEs, WBEs, and ESBEs whenever possible – whether they be CERT Certified or not. Many of the services we need from vendors are not represented by the vendors in the CERT program. Currently, 35-40% of our vendors are BIPOC owned, women owned, small, and/or a non-profit, although most have not registered through the CERT program. Below is our list of vendors that are CERT through the City of Saint Paul. We will continue to review the CERT program for future vendor opportunities.
