**RFP Event 1337 Team:**

College HUNKS is happy to provide the City of St Paul a proposal for the Bulky Items and/or Yard Waste portions of the Event 1337 RFP. As a locally owned and operated small business, College HUNKS Hauling Junk has at least four advantages over other companies:

1. Our trucks are staffed with two men each (instead of one), so our service is more efficient, timely, requires fewer trucks, and leaves smaller carbon footprint.
2. Direct contact with the owners and a high level of responsiveness to client questions and concerns.
3. A reliable labor pool that we draw on from the many local universities near our location in New Brighton.
4. The opportunity to work with a company that focuses on building college students into future community leaders.

As owners, we take a more hands-on approach than any others in the industry. We stay close to our employees and clients instead of holed up in an office or checking out on a beach somewhere because we love what we do. And the most fulfilling part of what we do is helping our college-aged employees become the kind of person that others in the community feel grateful to have around. That aim is the core of what sets us apart from other companies.

Please don't hesitate to contact either of us listed below with any questions. We are very excited to share some of our past successes with you and look forward to serving the City of St Paul!
