### 3.2. PENALTIES FOR SERVICE FAILURES PAST 5 YEARS (FORM B – ITEM 5)

FCC has developed an absolute commitment to the safe service in each and every community in which we provide collections. This commitment has remained a core feature to the foundation of our company, and we strive to consistently analyze and adapt the way in which we operate to increase the quality of our performance.

The following tables show the number of Liquidated Damages that our company has been assessed in the past 5 years.

In November 2022, FCC received an administrative fine from Orange County, FL due in main part to the area being greatly affected by Hurricane Ian and Tropical Storm Nicole which caused significant delays of collections and increased volumes of yard debris. In order to provide the needed level of service to collect the increased volume, FCC shifted resources to these primary lines of business to give them adequate support. By working diligently with the County and by optimizing resources, FCC was able to mitigate route delays and utilized weekend crews to complete cart requests in a quick and efficient fashion.

In June 2023, FCC received administrative fines due to severe landfill delays at the Orange County facility, training new hires on the safe operation of the vehicle and route, and sporadic sensor issues on new equipment, FCC experienced route delays during a 1-week period in the month of June. As a commitment to return to the excellent service that is expected with every contract, FCC brought in equipment manufacturers to quickly diagnose the sensor issues on vehicles and conduct onsite repairs in order to minimize the delays as much as possible. Furthermore, FCC's onsite staff remained dedicated to effectively training newly established employees as well as dispatched additional resources to support affected routes throughout the remaining duration of the landfill delays.

In 2022, FCC experienced several obstacles of the industry including a rapidly increasing amount of household waste and bulk items, as well as massive increases in inflation and market delays of key material and equipment.

FCC remained constant in our commitment to the service of the City of Rowlett by performing a collection analysis on the current services provided. Due to the growth within the City and an expanded volume of bulk, it was determined that additional routes and resources were needed. Therefore, FCC immediately and diligently increased the number of bulk routes by 50% from 2 to 3 grapple trucks and collection teams and also increased the number of garbage routes by 20% from 5 to 6 rear load trucks and collection teams. With this change, FCC has been able to improve our level of service for the City of Rowlett.

FCC has not been assessed nor had deducted administrative fines, liquidated damages, or penalties during the past 5 years in the following contracts:

- Volusia County (45k residential units)
- City of Edgewood (868 residential units / 100 commercial accounts)
- Palm Beach County (116k residential units / 2,990 commercial accounts)
- Village of Wellington (24k residential units / 670 commercial accounts)
- City of Omaha (150k residential units)
- City of Port St Lucie (86k residential units / 1,200 commercial accounts)
- City of Palm Coast (40k residential units)

**RFP EVENT 1337 MIXED MUNICIPAL SOLID WASTE/YARD WASTE (MSW/YARD WASTE),  
BULKY ITEMS/PROBLEM MATERIALS, AND RECYCLABLES COLLECTION SERVICES**

An important note as a showing of full transparency to the City of Saint Paul is the unique incentive-based contract of Polk County due to the way in which performance of the Contractor is structured and measured. Rather than administering or deducting any fines/liquidated damages, or penalties, Polk County calculates performance by automatically deducting 5% of the gross monthly revenues (approximately \$50k). Each month, haulers have the opportunity to earn incentives by completing the following:

- Missed Collections – Garbage, Recycling, and Horticultural Trash - (Total not to exceed 130 per month)
- Litter – (Cleaned within 4 hours)
- Spillage – (Cleaned within 4 hours)
- Property Damage – (Investigated and Repaired within 2 Days)
- Roll Cart Repair/Replace – (Resolved within 2 Days)

Although FCC makes every attempt to regain this retainage total each month and strives to improve upon the previous month's performance to do so, due to the stringent degree of these parameters set forth within the Polk County contract, the County has retained the following totals for each month of the contract during the past 5 years.

### 3.3. FCC AFFILIATED LINES OF BUSINESS (FORM B – ITEM 6)

Municipal services have been at the core of FCC's business for 112 years starting with its first contract for collection services for municipalities in the City of Barcelona in 1911. This contract award was a very important milestone in the Company's history, as it marked the first entry into the services field. We have been providing collection services uninterruptedly in Barcelona since 1911 through successive contract awards since that time.

FCC is one of the world's largest waste management and recycling companies with a presence in over 37 countries. FCC's more than 60,000 employees worldwide interact with citizens daily and focus on constantly increasing sustainability. FCC's services include the collection, treatment, and removal of solid waste, cleaning public roads, maintenance of sewage networks, maintenance of green areas, street furniture, industrial waste treatment and removal, and integrated water management. These activities have a large presence in many areas of Europe, the Americas, and Africa. FCC began its international experience at the end of the 90s' and the markets in which have grown in recent years are the United States, Latin America, and Africa.

The company operates in over 5,000 municipalities across the world where we improve the well-being of over 60 million citizens. It boasts over 100+ years of experience, which is reflected in the diversity of services we provide: collection, treatment, recycling, energy recovery, disposal of solid urban waste, street cleaning, sewer network maintenance, ground maintenance and preservation of green spaces, polluted soils recovery, and comprehensive management of industrial waste. As a waste management leader, we have nearly 2.5 million containers, carts, and bins of all sizes and more than 17,000 trucks or special vehicles to ensure secure and efficient collection and transport of all waste for further treatment.

FCC began collection services in the U.S. in 2016 with the awarded contract of Orange County, FL. Since this initial contract, FCC has rapidly expanded with the addition of forty-eight (48) awarded contracts by governmental entities through our commitment to excellent service and our unwavering promise to being a dedicated partner. FCC collects an estimated 1,350,000 tons of MSW, 200,000 tons of recyclable material, and 300,000 tons of yard waste on an annual basis.

Our company takes immense pride in transitions as they directly impact the residents of the service. **Through our 112 years of experience collecting municipal contracts, we have executed thousands of these successfully.**

FCC has a wealth of experience in successful transitions for large municipalities. Since 2016, we have transitioned several contracts with varying levels of service, both residential and commercial, as well as within varying timeframes to complete the process. Despite any constraints or variables, FCC has always managed to order and receive ample equipment, hire qualified personnel, secured a facility, and communicate soundly with City/County staff to reassure and confirm every step of the transition.

### 3.6. REFERENCES FOR ACTIVE MUNICIPAL CONTRACTS (FORM B – ITEM 10)

As a key component of our culture, building lasting partnerships with each Community and staff is essential so that providing excellent services is an expectation from each of our sites. Therefore, FCC is proud to provide Saint Paul with a list of reference contacts for each of our contracts have been held within the last five (5) years. An important note that shows FCC's dedication to providing excellent collection services is that all of FCC's references are active as we have been able to retain every contract once awarded in the US.
