

Earl Street Reconstruction: Pre-Construction Information Meetings

March 20, 2026

Project Overview

The City of Saint Paul will reconstruct Earl Street between Maryland Avenue and Burns Avenue in 2026 and 2027. Phase 1 - Earl Street from Maryland Avenue to Minnehaha Avenue will be constructed in 2026 and Phase 2 - Minnehaha Avenue to Burns Avenue will be constructed in 2027.

This is a full reconstruction, meaning it will completely rebuild the road. It will include work on water and sewer, adding curbs and gutters, paving the street, installing signs and lights, and improving the sidewalks, pedestrian safety, and bikeway connections. For more information about the project visit the project webpage at stpaul.gov/earlstreet.

Living Through Construction

What to Expect

- Varying levels of noise
- Dust and dirt that may get on your car and clothes/items/belongings
- Mud throughout the construction area
- Limited street access
- Inconvenience

General Process Information

- Plan for about 4 to 5 months of disruption for the entire project. The detailed project schedule is subject to change and is weather dependent; rain will delay work.
- Business, resident, and emergency vehicle access will be maintained.
- All of the construction work is done by private, contracted construction companies. Contractors often work 5 to 6 days a week from 7:00 a.m. until 7:00 p.m.
- The City of Saint Paul will have an onsite representative, called a *Project Inspector*, to routinely inspect the contractor's work.

Road Closures

Construction signage can be confusing. The two most common road closure signs you will see around and within the project area are:

<- Road Closed to Thru Traffic: You *can* get to your house, but you *cannot* access the entirety of the street. You will eventually come to a Road Closed sign.

Road Closed ->: DO NOT ENTER. The street is *not* safe beyond the sign.
