Finding a TISH Report in PAULIE

The best way to find a TISH report in PAULIE is to use the PID/PIN assigned by Ramsey County rather than the address. The Ramsey County Property Tax Information site is Beacon - Ramsey County, MN - Search. Copy the PID/PIN. When you are in PAULIE, "Search Public Records" and the below box will come up. Change the Search from "All" to "Permit" and paste the PID/PIN.

When the list of permits comes up, change from Ascending to Descending order so the most recent permits (TISH) will come up first.

The Permit Number will start with DSITISH-xxxxxx-202X.

Click on the Permit Number.
Then select Attachments on next page

Report will be in pdf format.

The TISH report should be the first permit at the top of the list. If there isn't a report listed, a TISH likely has not been done. Best is to contact the seller's realtor to let them know you are looking for a TISH report.
